**TOMAHAWK PM TETHERBALL SET**

Tetherball post shall be constructed of 2 3/8" OD x 3/16" wall steel tubing. Post shall have a galvanized finish to prevent rust. Painted posts shall not be considered equal. Base of post shall have a machined notch at the bottom to prevent the post from rotating in the concrete footing during play. Post shall be a one-piece post x 12' long to allow 24" of post to extend below the playing surface. Rope shall have a recessed connection to ball for player comfort and safety. Rope shall connect to top of post via an eyebolt and carabiner clip. System shall include post, tetherball with rope and hardware.

Tomahawk PM Tetherball set shall carry a Lifetime Limited Warranty.

System weight shall be 50 lbs.
