WARRANTY INFORMATION FOR FIRST TEAM PRODUCTS

BASKETBALL EQUIPMENT WARRANTY INFORMATION:

All First Team basketball products are warranted against manufacturers defects at delivery. Additionally, First Team warrants most products to the original retail customer for a given period of time as stated in the literature. Below is an explanation of First Team's warranty levels.

Limited Warranty -

Covers any damage caused by normal basketball activity and normal player contact with the goal. "Normal basketball activity" and "Normal player contact" shall be described as any action that is necessary for participation in the game of basketball. Deliberate hanging on the rim, multiple player hanging, and vandalism are not covered under the Limited Warranty.

Any normal wear and tear caused by weathering or UV exposure is not covered under any First Team warranty. All painted items carry a one year limited warranty on coating.

Some basketball products carry a warranty valid only when used in a residential setting. "Residential" is defined as a "single family dwelling." Products covered by this warranty stipulation are indicated in First Team's product literature with a 🏠 symbol next to the warranty. Under no circumstances shall any basketball product carrying a strictly residential warranty be covered for non-residential use.

Superior Warranty -

Covers any damage or failure caused by any type of basketball activity or related contact with the unit. This includes deliberate hanging on the rim. The Superior Warranty does not cover vandalism.

Unconditional Warranty

Covers any damage or failure that occurs for any reason. Any product carrying an Unconditional Warranty is exempt from the above stated limitations.

Due to the abusive nature of amusement facilities, unless specifically agreed to in writing, First Team products carry no warranty except for obvious manufacturing defects when used in an entertainment facility where players pay a fee to use the equipment.

VOLLEYBALL & TENNIS EQUIPMENT WARRANTY:

All First Team volleyball & tennis products are warranted against manufacturers defects at delivery. Additionally, most products are warranted to the original retail customer for a given period of time as stated in the literature. Below is an explanation of First Team's warranty levels for volleyball & tennis products.

Limited Warranty -

Covers any damage or failure that occurs during the course of "normal or intended use" of the product. Normal or intended use of the product shall be described as activity that is necessary for participation in the sport for which the equipment is designed. Malicious or deliberate damage caused by vandalism is not covered under First Team's Limited Warranty.

Any normal wear and tear caused by weathering, or UV exposure is not covered under any First Team warranty. All painted items carry a one year limited warranty on coating. All volleyball & tennis nets carry a 2-Year Limited Warranty.

Some volleyball or tennis products carry a warranty valid only when used in a residential setting. "Residential" is defined as a "single family dwelling." Products covered by this warranty stipulation are indicated in First Team's product literature with a 🏠 symbol next to the warranty. Under no circumstances shall any volleyball or tennis product carrying a strictly residential warranty be covered for non-residential use.

Superior Warranty -

Covers any damage or failure caused by any type of volleyball or tennis activity, contact with the unit or associated use of the product. "Associated use" of the product includes but is not limited to setup and teardown of volleyball & tennis systems.

WARRANTY INFORMATION FOR FIRST TEAM PRODUCTS

SOCCER EQUIPMENT WARRANTY INFORMATION:

All First Team soccer products are warranted against manufacturers defects at delivery. Additionally, most products are warranted to the original retail customer for a given period of time as stated in the literature. Below is an explanation of First Team's warranty levels for soccer products.

Limited Warranty -

Covers any damage or failure that occurs during the course of "normal or intended use" of the product. Normal or intended use of the product shall be described as activity that is necessary for participation in the sport for which the equipment is designed. Malicious or deliberate damage caused by vandalism is not covered under First Team's Limited Warranty.

Any normal wear and tear caused by weathering , or UV exposure is not covered under any First Team warranty. All painted items carry a one year limited warranty on coating. All soccer nets carry a 1-Year Limited Warranty.

Some soccer products carry a warranty valid only when used in a residential setting. "Residential" is defined as a "single family dwelling." Products covered by this warranty stipulation are indicated in First Team's product literature with a  symbol next to the warranty. Under no circumstances shall any soccer product carrying a strictly residential warranty be covered for non-residential use.

Superior Warranty -

Covers any damage or failure caused by any type of soccer activity, contact with the unit or associated use of the product. "Associated use" of the product includes but is not limited to transport of portable goals.

FOOTBALL AND LACROSSE EQUIPMENT WARRANTY INFORMATION:

All First Team football/lacrosse products are warranted against manufacturer's defects at delivery. Additionally, most products are warranted to the original retail customer for a given period of time as stated in the literature. Below is an explanation of First Team's warranty levels for football/lacrosse products.

Limited Warranty -

Covers any damage or failure that occurs during the course of "normal or intended use" of the product. Normal or intended use of the product shall be described as activity that is necessary for participation in the sport for which the equipment is designed. Malicious or deliberate damage caused by vandalism is not covered under First Team's Limited Warranty.

Any normal wear and tear caused by weathering or UV exposure is not covered under any First Team warranty. All painted items carry a one year limited warranty on coating.

Some football products carry a warranty valid only when used in a residential setting. "Residential" is defined as a "single family dwelling." Products covered by this warranty stipulation are indicated in First Team's product literature with a  symbol next to the warranty. Under no circumstances shall any football product carrying a strictly residential warranty be covered for non-residential use

Superior Warranty -

Covers any damage or failure caused by any type of football/lacrosse activity or associated use of the product. "Associated use" of the product includes but is not limited to player contact with the goal. All lacrosse nets carry a 1-Year Limited Warranty.

• Safety padding covers front, sides and back of base unit

- Rolls on 8" diameter non-marking wheels
- 5" non-marking foot pads lock unit into position for play

WARNING!

Failure to install customer supplied ballast according to instructions could result in serious injury.

The Hurricane competition style portable basketball goal is designed for use in a fieldhouse, gymnasium or anywhere upper end, aggressive basketball is played.

The Hurricane's massive extension arm features an upper and lower boom support. The extension distance from base to backboard is 96" meeting all NCAA and National High School Federation requirements. The unit comes equipped with First Team's top of the line FT235 Unbreakable 42"x72" competition tempered glass basketball backboard, FT196 Full-Tilt 180 degree breakaway basketball goal and FT72C TuffGuard bolt-on backboard padding. These are the same components used in high schools and colleges throughout the country.

The Hurricane portable basketball hoop is also height adjustable. Rim height adjustments from 10' down to 6' are made easily with its low maintenance extension spring design. To adjust the unit, simply pull the pin located on the adjustment rod, raise or lower the unit as needed and replace the pin. One person can easily roll the unit into place and set up easily.

Heavy foam padding, available in an array of colors, protects players on the front, sides and back of the base unit. A boom extension pad is also included. The unit is extremely stable as well as durable and will not tip over when players hang on the rim. For additional support, rear hold downs are included as required by the NCAA and NHSF for competition portable goals. Choose the Hurricane Triumph-FL package for installations on floating floors or Hurricane Triumph-ST for all other flooring surfaces.

Floor load on the wheels is: 350 psi.

All Hurricane portable basketball goals are covered by First Team's unmatched Lifetime Superior Warranty!

WILDCATS

- Safety padding covers front, sides and back of base unit

- 8" non-marking casters lock unit into position for play

The Storm is a portable basketball goal designed for use in a gymnasium, fieldhouse, multipurpose facility or recreational complex.

The Storm is adjustable. Height adjustments from 10' down to 6' are made easily with the Storm's spring-aided design. To adjust, simply pull the pin located on the adjustment rod, raise or lower the unit as needed and replace the pin.

The distance from the backboard to the base of the unit is variable from 54" to 66" allowing the Storm to fit into your facility. Heavy foam padding, available in an array of colors, protects players on the front, sides and back of the base. The unit is extremely stable as well as durable, and will not tip over when players hang on the rim.

Floor load on the wheels is:

Rolling - 325 psi

Stationary - 325 psi

A variety of backboards ranging in size from 36"x60" to 42"x72" are available on the Storm. This allows the unit to be customized for a wide scope of applications and budgets.

Every Storm package comes with a Lifetime Superior Warranty.

the THUNDER™

PORTABLE BASKETBALL SYSTEM

- Extensive backboard selection in acrylic or tempered glass
- All First Team goals are direct mounted to eliminate backboard breakage when players hang on the rim
- Additional H-Frame backboard support for extra ball response
- Rim height adjusts for smaller players

- Compact & Easy to roll
- Simple hand crank adjusts rim height from 10' - 6'6"
- Optional bolt-on TuffGuard™ backboard padding
- Post to backboard extension distance is 48"
- Rim Height Indicator
- Safety padding covers front of base unit

The Thunder portable basketball goal is an excellent choice for any school gymnasium, recreation complex, multipurpose facility or church in need of a high quality portable while working within a budget.

The Thunder is adjustable. Its simple to use hand crank allows for infinite height adjustments from regulation 10' down to 6'6". An easy to crank adjustment handle on the backside of the unit telescopes the backboard and rim to the desired playing height.

One person can easily move the Thunder portable goal. An easy to grip release crank unlocks the brake and six roller wheels contact the playing surface for smooth portability. The extension arm can quickly drop down to allow the unit to pass under any standard height double doors.

The distance from the backboard to the base of the unit is 4' with the rim at the regulation 10' height. This allows the base of the unit to sit "off the court" for player safety. Heavy foam padding covers the entire front of the unit for additional safety. Padding is available in several colors.

The unit is durable and stable enough to withstand slam dunk action and will not tip over when players hang on the rim.

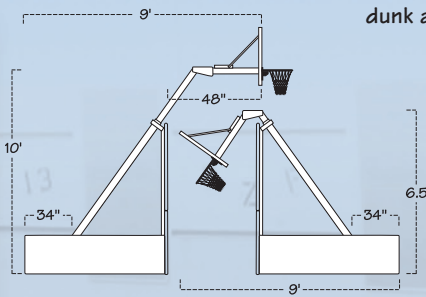

Floor load on the wheels is:

- Rolling - 275 psi
- Stationary - 210 psi

A variety of backboards ranging from 36"x54" to 42"x72" are available on the Thunder. This allows the unit to meet an array of facilities and budget needs.

Every Thunder package comes with a Lifetime Superior Warranty.

the FURY™

PORTABLE BASKETBALL SYSTEM

- Selection of various clear acrylic and tempered glass backboards in sizes ranging from 36"x48" to 36"x60"
- Optional bolt-on TuffGuard™ backboard padding
- Rim height adjusts for smaller players

- All First Team goals are direct mounted to eliminate backboard breakage when players hang on the rim

The Fury portable basketball goal is designed to withstand the demands of adult recreation centers while providing the flexibility necessary for many churches and elementary grade levels.

The Fury is infinitely adjustable. Simply turn the adjustment crank handle behind the unit to lower the rim height anywhere from 10' down to 6'6". The Fury's exclusive crank adjustment design is vastly superior in overall rigidity compared to similar goals using inferior "spring-slide" methods.

The Fury is engineered to be extremely easy to move. One person can transport the goal by flipping the lower pad forward and rolling into position. Return pad to upright position to lock base in place for play. The extension arm can be dropped without tools to allow the Fury to pass under doorways.

The backboard to base extension is 48" with the rim at regular height. This allows the Fury to sit "off-court" for player safety. Heavy padding, available in several colors, protects the player from contact with the base unit.

Floor load on the wheels is:

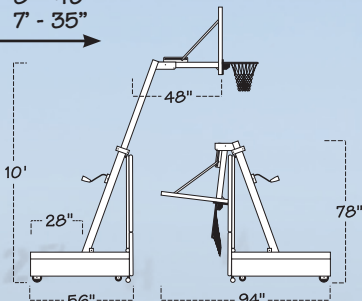

Rolling - 180 psi

Stationary - 140 psi

A variety of acrylic backboards are available on the Fury. Each package includes a high quality flex goal with net. Let the Fury help you make the most out of your facility and your budget.

Every Fury package comes with a Lifetime Limited Warranty.

- Post to backboard extension distance is 48" with rim at 10' (Extension distance decreases as rim height is lowered)

- Rim Height Indicator
- Hand crank easily adjusts rim height from 10' - 6'6"

the RAMPAGE™

PORTABLE BASKETBALL SYSTEM

- Selection of various clear acrylic and tempered glass backboards in sizes ranging from 36"x48" to 36"x60"

- All First Team goals are direct mounted to eliminate backboard breakage when players hang on the rim

- Optional bolt-on TuffGuard™ backboard padding

- Neck drops down to pass through doorway

- Compact & Easy to roll

- Simple hand crank easily adjusts rim height from 10' - 6.5'

- Optional FTB2BC Ballast Box Cover Padding

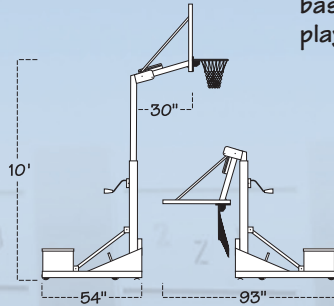

- Foot lever raises unit onto castors for rolling
- Tough powder coat paint

- Rim height adjusts for smaller players

- Safety padding covers front of base unit

The Rampage portable basketball goal is by far the best performing unit in its class. No other portable goal offers this level of rigidity, portability and simple height adjustment at such an affordable price.

Infinite rim height adjustment can be made with the easy crank handle located on the back of the vertical mast. The rim height indicator labels determine rim heights from 10' to 6'6". The Rampage uses our exclusive crank-up design, which is far superior to similar goals using "spring-slide" methods.

The Rampage can easily be transported across a gym floor or up a driveway. Simply depress the foot lever located on the base unit for transport. Flip the lever back up for play. The extension arm drops down easily without tools to allow the Rampage to pass under doorways for storage rooms or garages. The backboard to base extension is 30" at all rim heights. The front base and stem are covered with thick vinyl padding for player safety. Padding is available in several choices of colors.

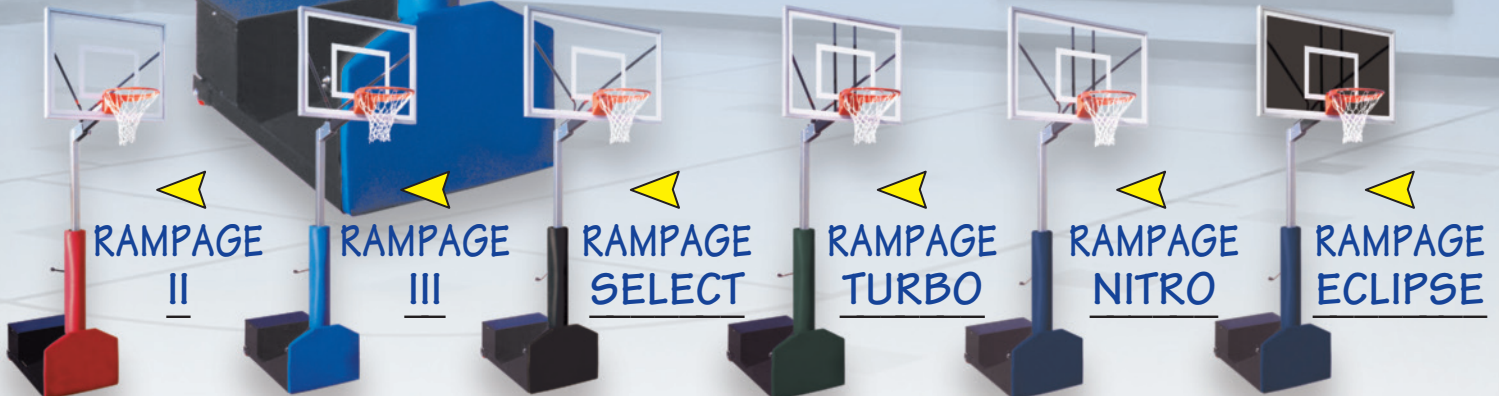

A selection of acrylic backboards is available on the Rampage. Each package includes a high quality flex goal with net. Get in the game with First Team's Rampage.

Every Rampage package comes with a Lifetime Limited Warranty.

WARNING!

Failure to install customer supplied ballast according to instructions could result in serious injury.

the ROLLAJAM™

PORTABLE BASKETBALL SYSTEM

- Selection of various clear acrylic and tempered glass backboards in sizes ranging from 36"x48" to 36"x60"

- All First Team goals are direct mounted to eliminate backboard breakage when players hang on the rim

- Optional bolt-on TuffGuard™ backboard padding

- Spring aided crank design makes adjustment effortless

- Rim Height Indicator shows height of rim

- Simple hand crank adjustment easily adjusts rim height from 10' - 6'6"

- Safety padding covers front of base unit

- Powder coat finish protects against the elements

- Post actuator retracts vertical post for rolling and storage

- Compact & Easy to roll

- Optional FTB1BC Ballast Box Cover Padding

There is **nothing** like the RollaJam! The RollaJam's unique design is the first premium grade, portable goal with the residential player in mind.

The RollaJam is crank adjustable from regulation height of 10' down to 7'. The crank handle is spring-aided to make adjustments easy for all ages. The rim height indicator accurately shows rim location.

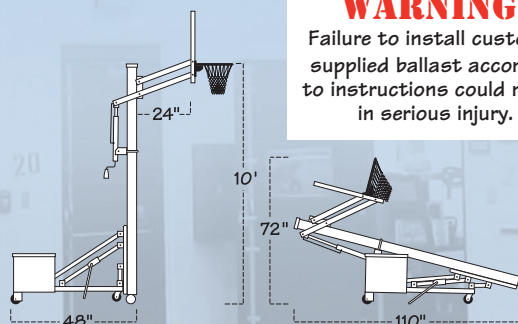

To transport the RollaJam, simply retract the vertical post, using the post actuator located on the base unit. As the post pitches back, the unit lowers onto the transport wheel. Return the post to its vertical position for play. The goal rolls easily into any garage, or through any set of double doors. A high quality post pad covers the front of the unit.

Customize the RollaJam by selecting the backboard and rim combo that fits your game! Choose First Team's RollaJam for your court. With no hole to dig and no concrete to pour, you'll be "Jammin" in no time with the RollaJam!

Every RollaJam package comes with a Lifetime Limited Warranty.

WARNING!

Failure to install customer supplied ballast according to instructions could result in serious injury.

the

ROLLASPORT™

PORTABLE BASKETBALL SYSTEM

- Selection of various clear acrylic backboards in sizes ranging from 36"x48" to 36"x60"

- Optional bolt-on TuffGuard™ backboard padding

- Fixed height extension arm secures to post using U-bolts

- Powder coat finish protects against the elements

- Safety padding covers front of base unit

- Post actuator retracts vertical post for rolling and storage

- All First Team goals are direct mounted to eliminate backboard breakage when players hang on the rim

- Compact & Easy to roll

- Optional FT81BC Ballast Box Cover Padding

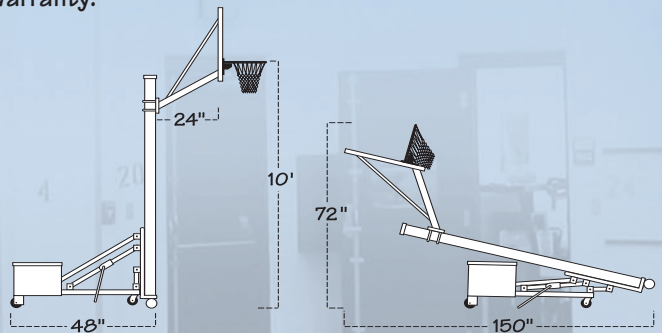

The RollaSport is the clear choice in portable goals when frequent rim height adjustments are not necessary.

The extension arm on the RollaSport is attached to the vertical post using two heavy duty U-bolts. Though the RollaSport is considered a "fixed-height" portable goal, the U-bolts can be loosened, allowing the arm to be re-attached at any given height along the post.

To transport the RollaSport, simply retract the vertical post, using the post actuator located on the base unit. As the post pitches back, the RollaSport lowers onto the transport wheel. Return the post to its vertical position for play. The goal rolls easily into any garage, or through any set of double doors. A high quality post pad covers the front of the unit.

Backboards are available from 36" x 48" to 36" x 60", giving you a choice for your home court. No portable goal offers the same quality court time at such an excellent value as the RollaSport.

Every RollaSport package comes with a Lifetime Limited Warranty.

WARNING!

Failure to install customer supplied ballast according to instructions could result in serious injury.

ROLLASPORT PACKAGE OPTIONS

RollaSport base padding is available in these colors:

Shades may vary slightly from color chart.

the OMNICHAMP™

PORTABLE BASKETBALL SYSTEM

- Backboards available in acrylic or glass
- Optional bolt-on TuffGuard™ backboard padding available in several colors
- Insta-Just™ height adjustment. No need for tools or a ladder. A simple broom handle allows you to adjust rim height from 10'-7" 6" in 6" increments.
- Optional all-weather post padding for added safety (See padding section for available colors)

Note: OmniChamp may be too tall to fit under your storage room door. Check associated storage dims to make sure the unit will fit in your storage facility.

- Base to backboard extension distance is 14" with rim at 10' (Extension distance increases as rim height is lowered)

- Easy, quick adjustment

- Pull handle for transport

- Large ballast plug for easy loading

WARNING!

Failure to install customer supplied ballast according to instructions could result in serious injury.

The OmniChamp is an adjustable portable basketball goal designed to provide a higher level of performance than those commonly found at standard retail chain stores, yet it does not carry the hefty price tag associated with gymnasium level units. For use indoors or outdoors the large poly base is designed to hold up to 500 lbs. of sand, making the unit extremely stable. The post is one-piece 4" square 11 gauge, far superior to sectional posts. The cam lever handle located on the front of the base makes one person transport easy on any hard, smooth and level surface. To adjust the OmniChamp to various rim heights, simply release the InstaJust bracket located behind the backboard using a broom handle. The unit easily adjusts from 10' down to 7 1/2' in six inch increments. Various backboard sizes and materials are available to choose from. For added safety, a contoured post pad is also available in an array of colors. To dress up your home court, choose First Team's post pad custom lettering option. Because it comes from First Team, you know it's 100% Made In The USA and that means quality. When you are looking for a portable basketball hoop to fit your performance demands that won't break your budget, choose First Team's affordable portable, OmniChamp!

the OMNISLAM™

PORTABLE BASKETBALL SYSTEM

- Backboards available in acrylic or glass
- Optional bolt-on TuffGuard™ backboard padding available in several colors
- Springs located in the extension assembly counter balance the weight of the backboard and rim. Adjustment is effortless.
- Optional all-weather post padding for added safety (See padding section for available colors)
- Quik-Pin™ height adjustment design makes adjusting the OMNISLAM effortless and safe. Unit adjusts from 10'-7" in 6" increments.

Note: OmniSlam may be too tall to fit under your storage room door. Check associated storage dims to make sure the unit will fit in your storage facility.

- Base to backboard extension distance is 19" with rim at 10' (Extension distance increases as rim height is lowered)

• Easy, quick adjustment

• Pull handle for transport

• Large ballast plug for easy loading

WARNING!

Failure to install customer supplied ballast according to instructions could result in serious injury.

The OmniSlam is a great way to upgrade your court. Indoors or out, OmniSlam is a premium quality performing portable basketball hoop! The OmniSlam is significantly better in performance and durability than portables found at large sporting goods chain stores. The large poly base is designed to hold up to 500 lbs. of sand for maximum stability. No more flimsy portables that blow over in the wind! The rugged 4" square one piece 11 gauge post will not wobble and separate like sectional posts. The handy cam lever handle on the front makes one person transport simple over any hard, smooth surface. The OmniSlam is adjustable from 10' down to 7' in six inch increments. Adjustments are very quick by removing the slide pin on the back of the post, the spring balanced design makes rim height adjustments quick and easy. Replace the pin for play. Various backboard sizes and materials are available to choose from. For added safety, a contoured post pad is also available in an array of colors. To dress up your home court, choose First Team's post pad custom lettering option. Because it comes from First Team, you know it's 100% Made In the USA and that means quality. When you are looking for a portable basketball hoop to fit your performance demands that won't break your budget, choose First Team's affordable portable, OmniSlam!

the

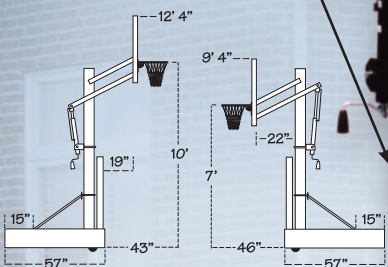

OMNIJAM™

PORTABLE BASKETBALL SYSTEM

- Backboards available in acrylic or glass
- Optional bolt-on TuffGuard™ backboard padding available in several colors
- Springs located in the extension assembly counterbalance the weight of the backboard and rim. Adjustment is effortless.
- Simple hand crank adjustment easily adjusts rim height from 10' - 7"
- Optional all-weather post padding for added safety (See padding section for available colors)

Note: OmniJam may be too tall to fit under your storage room door. Check associated storage dims to make sure the unit will fit in your storage facility.

• Effortless adjustment

• Pull handle for transport

• Large ballast plug for easy loading

• Base to backboard extension distance is 19" with rim at 10' (Extension distance increases as rim height is lowered)

WARNING!
Failure to install customer supplied ballast according to instructions could result in serious injury.

The OmniJam portable basketball goal brings gymnasium quality style and performance to any home court, primary school or recreation facility. The OmniJam outperforms any portable in its price category. The unit's high durability, stability and performance are built in to the unit's design. First Team is proud to manufacture its products in the USA, and this commitment shows in the OmniJam. The large poly base has a 500 lbs. sand capacity. The base unit has a large plug on the back for easy ballast (sand) loading during assembly. The unit has a durable 4" square one-piece post that will not separate or wobble like common sectional posts. The crank handle on the back of the post makes rim height adjustment easy for any age. By turning the hand crank, the rim height can easily be adjusted infinitely between 10' and 7". An easy to read height regulator is located on the back. Transport is also simple. The large cam lever handle design makes moving the unit over any hard, smooth surface a breeze. Pull handle forward to roll, lift handle for play. Various backboard sizes and materials are available to choose from. For added safety, a contoured post pad is also available in an array of colors. To really dress up your home court, choose First Team's post pad custom lettering option. Because it comes from First Team, you know it's 100% Made In the USA and that means quality. When you are looking for a portable basketball hoop to fit your performance demands that won't break your budget, choose First Team's affordable portable, OmniJam!

the WALLMONSTER™

ADJUSTABLE WALLMOUNT STRUCTURE

- 4' Extension Setup
10' rim height - 48" offset
8' rim height - 51" offset
- 3' Extension Setup
10' rim height - 36" offset
8' rim height - 50" offset

• Selection of various clear acrylic, tempered glass and steel backboards. Sizes vary from 42"x60" to 42"x72".

• Backboard braces for superior backboard rigidity

• Heavy Duty Flex or Fixed Goals

• Optional bolt-on TuffGuard™ backboard padding

• Spring-Aided for Easy Adjustment

• Super strength goals are "direct mounted" to eliminate backboard stress

• Dense Southern Yellow Pine Boards Included

• Easy adjustment from the ground with included handle

First Team's WallMonster adjustable basketball goal is a convenient, cost effective choice when an adjustable wall mounted basketball unit is needed. The WallMonster is great for all ages. The built in adjustment mechanism can be operated from ground level using the removable crank handle provided. Adjustments can be made without the use of a ladder.

The WallMonster is extremely versatile. It can be installed with either a 36" offset or a 48" offset making it a perfect choice for a wide variety of indoor or outdoor basketball courts. The all steel construction is powder coated black for weather protection and a sleek look. An easy to read rim height indicator shows the height of the rim as the unit is adjusted. For 48" offset installations,

the rim height is adjustable from 10' down to 7 ½' while 36" offset installation can lower down to 6 ½'.

Choose from First Team's WallMonster package options listed below. For added protection, backboard safety padding is available for all WallMonster package options. Each WallMonster system is covered by First Team's Lifetime Limited Warranty.

the

VERSISPORT™

FIXED HEIGHT WALLMOUNT STRUCTURE

• Third wallboard with brackets and turnbuckles for added security and safety

• Selection of various clear acrylic backboards. Sizes vary from 36"x48" to 36"x60".

• Optional bolt-on TuffGuard™ backboard padding

• Dense Southern Yellow Pine Boards Included

• Heavy Duty Versi-Strut all steel structure

• Super Strength rims are "direct mounted" to eliminate backboard stress

• Wall to backboard distance is 28"

First Team's VersiSport series offers a solid, affordable wall mount option when rim height adjustability is not needed. The fixed height extension arm is bolted to First Team's unique Versi-Strut structure providing a safe and strong support.

Each VersiSport unit includes three dense southern yellow pine mounting

boards for safe and secure wall mounting. Customer is responsible to provide hardware to secure mounting boards to the wall, all other assembly hardware is provided.

The unit is designed with a 28" wall to backboard extension. A variety of backboards and rims are offered with the VersiSport series so you can

choose the VersiSport package that is right for you.

For additional safety, backboard padding is available for each VersiSport package in a variety of colors. Every VersiSport package is covered by First Team's Lifetime Limited Warranty.

• Spring-Aided Adjustment

• Simple hand crank adjustment easily adjusts rim height from 10'-7"

• Wall to backboard extension distance is 36" with rim at 10' (Extension distance increases as rim height is lowered)

• Hand crank is removable

First Team's VersiVector provides the easiest and most economical way to get infinite height adjustment and great performance in a wall mounted basketball system. The VersiVector wall mounted basketball system includes three dense southern yellow pine boards that our unique Versi-Strut structure secures to. The adjustable arm system

allows easy and quick height adjustments ranging from 10' down to 7' and anywhere in between. Our Spring-Assist crank design is the easiest to operate in the industry. The crank handle is removable to prevent unwanted adjustment. The height indicator clearly shows the height of the rim. All VersiVector packages include a

breakaway rim or super duty fixed double rim and net. A variety of backboards are available ranging in size from 36"x48" to 36"x60". Choose the package that is right for your home court.

For additional safety, backboard padding can be added to any VersiVector package. Each VersiVector system includes a Lifetime Limited Warranty.

the
SUPERMOUNT™ 01
STATIONARY WALLMOUNT STRUCTURE

• Add First Team's optional backboard height adjuster for little leagues and youth camps

The Supermount01 shooting station is designed to allow backboard installation in tight spaces where playing area is at a premium. If your facility requires a backboard installation close to the wall, call on First Team's Supermount01 series!

The Supermount01 structure provides quick and easy installation of a backboard on a wall with a minimal 12" of wall-to-backboard distance. First Team provides an array of prepackaged Supermount01 options to choose from.

The Supermount01 can be used with virtually ANY commercial grade backboard. However, selecting a Supermount01 package is easy and guarantees component compatibility. All Supermount01 packages come with a Limited Lifetime Warranty.

the
SUPERMOUNT™ 23
STATIONARY WALLMOUNT STRUCTURE

Great for basketball courts with limited space! First Team's new SuperMount23 simplifies the task of installing a top-quality wall-mounted basketball structure where space is tight.

Never before has it been so simple to purchase and install a commercial quality wall-mounted basketball system. With First Team's SuperMount23 there is no need to calculate exact extension requirements before ordering. The SuperMount23 is specifically

designed to provide wall-to-backboard extension distances anywhere from 2' - 3' during installation. This allows the unit to be "fine-tuned" to match the court markings on the floor. You will avoid costly rework and field modifications commonly cause by measurement errors.

Additionally, the SuperMount23 Wall Mounted Basketball Hoop is so versatile it can be configured to match up to any basketball backboard. So, no matter what basketball

backboard you prefer, you know the SuperMount23 Wall Mount is compatible.

Select from First Team's broad array of package configurations to satisfy the needs of your facility or home court. Remember, for additional safety, First Team offers optional bolt-on padding for most SuperMount23 packages.

Every SuperMount23 Wall Mount Basketball Goal System comes with a Lifetime Limited Warranty.

the FOLDAMOUNT™ 46

SIDE-FOLDING WALLMOUNT STRUCTURE

• Add First Team's optional backboard height adjuster for little leagues and youth camps

The FoldaMount46 side-folding wall mount structure simplifies the task of ordering and installing top quality side-fold wall-mounted basketball systems.

When your facility requires that the basketball goals be folded against the wall to make room for volleyball or other activities, call on First Team's FoldaMount46 series. The unit swings left or right for storage close to the wall without tools or ladders! Ordering is simple. Simply choose the FoldaMount46 package that best suits your needs and budget.

No more guesswork about which backboard and rim to choose. Compatibility is guaranteed!

Installing the FoldaMount46 is simple as well. The FoldaMount46 is specifically designed to provide wall-to-backboard extension distances from 4' to 6' during installation. This allows the unit to be "fine-tuned" to match the court markings on the floor. You will avoid costly rework and field modifications commonly caused by measurement errors.

Folding the unit is easy. Simply use the adjustment crank provided with

each unit to loosen the adjustment screw. Grab the rim with the hook on the crank and tug on the unit to slide it against the wall. Then tighten the adjustment screw to secure the unit. Reverse the process to set up for play! It's that simple!

Pick from First Team's broad array of package configurations to satisfy the needs of your facility. Remember, for additional safety, First Team offers optional bolt-on padding for most FoldaMount46 packages.

All FoldaMount46 packages come with a Lifetime Limited Warranty.

Folding the unit is easy. Simply use the adjustment crank provided with

each unit to loosen the adjustment screw. Grab the rim with the hook on the crank and tug on the unit to slide it against the wall. Then tighten the adjustment screw to secure the unit. Reverse the process to set up for play! It's that simple!

Pick from First Team's broad array of package configurations to satisfy the needs of your facility. Remember, for additional safety, First Team offers optional bolt-on padding for most FoldaMount68 packages.

All FoldaMount68 packages come with a Lifetime Limited Warranty.

the FOLDAMOUNT™ 82

SIDE-FOLDING WALLMOUNT STRUCTURE

• Add First Team's optional backboard height adjuster for little leagues and youth camps

The FoldaMount82 side-folding wall mount structure simplifies the task of ordering and installing top quality side-fold wall-mounted basketball systems.

When your facility requires that the basketball goals be folded against the wall to make room for volleyball or other activities, call on First Team's FoldaMount82 series. The unit swings left or right for storage close to the wall without tools or ladders! Ordering is simple. Simply choose the FoldaMount82 package that best suits your needs and

budget. No more guesswork about which backboard and rim to choose. Compatibility is guaranteed!

Installing the FoldaMount82 is simple as well. The FoldaMount82 is specifically designed to provide wall-to-backboard distances from 8' to 12' during installation. This allows the unit to be "fine-tuned" to match the court markings on the floor. You will avoid costly rework and field modifications commonly caused by measurement errors.

Folding the unit is easy. Simply use the adjustment crank provided with

each unit to loosen the adjustment screw. Grab the rim with the hook on the crank and tug on the unit to slide it against the wall. Then tighten the adjustment screw to secure the unit. Reverse the process to set up for play! It's that simple!

Pick from First Team's broad array of package configurations to satisfy the needs of your facility. Remember, for additional safety, First Team offers optional bolt-on padding for most FoldaMount82 packages.

All FoldaMount82 packages come with a Lifetime Limited Warranty.

COMPETITION GLASS BACKBOARDS

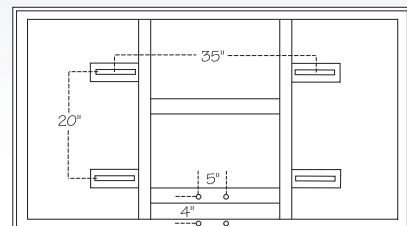

FT235

- Official 42"x72" tempered glass backboard
- Rim mount design eliminates goal-to-glass contact
- Guaranteed to be unbreakable during play
- Built-in goal leveling feature
- Board is pre-drilled for FT72C TuffGuard backboard padding (goal and padding not included)
- Cushioned 1/2" tempered glass
- Regulation white border and shooters square fired into glass
- Meets all NCAA and H.S. specifications
- **Lifetime Superior Warranty**
- Approx. Shipping Weight: 200 lbs.

FT240

- Official 42"x72" tempered glass conversion backboard
- Mounts directly to structures where fan-shaped boards previously existed
- Unbreakable design like our popular FT235 board
- Built-in goal leveling feature
- Board is pre-drilled for FT72C TuffGuard backboard padding (goal and padding not included)
- Cushioned 1/2" tempered glass
- Regulation white border and shooters square fired into glass
- Meets all NCAA and H.S. specifications
- **Lifetime Superior Warranty**
- Approx. Shipping Weight: 230 lbs.

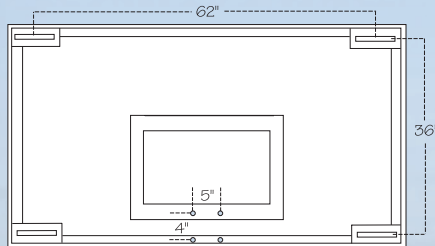

COMPETITION GLASS BACKBOARDS

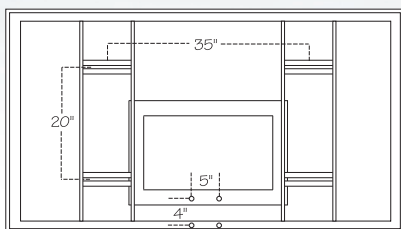

FT234

- Official 42"x72" tempered glass backboard
- Board is pre-drilled for FT72C TuffGuard backboard padding (goal and padding not included)
- Cushioned 1/2" tempered glass
- Regulation white border and shooters square fired into glass
- Great for use where rough play is not expected
- Meets all NCAA and H.S. specifications
- **Lifetime Limited Warranty**
- Approx. Shipping Weight: 190 lbs.

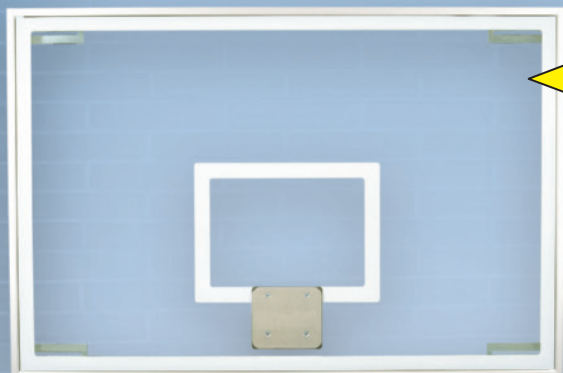

FT239

- Official 42"x72" tempered glass conversion backboard
- Mounts directly to structures where fan-shaped boards previously existed
- Board is pre-drilled for FT72C TuffGuard backboard padding (goal and padding not included)
- Cushioned 1/2" tempered glass
- Regulation white border and shooters square fired into glass
- Great for use where rough play is not expected
- Meets all NCAA and H.S. specifications
- **Lifetime Limited Warranty**
- Approx. Shipping Weight: 220 lbs.

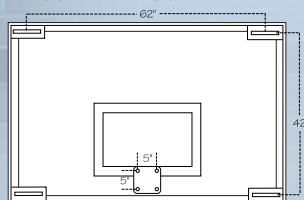

OTHER GYMNASIUM BACKBOARDS

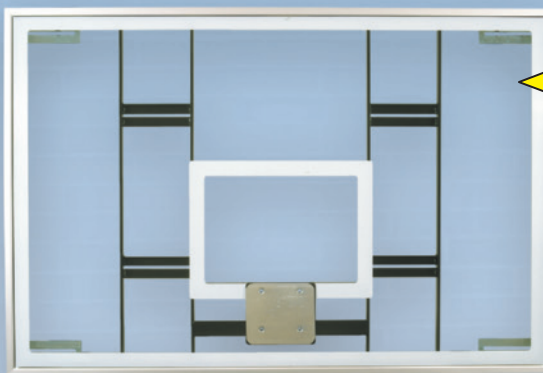

FT236

- Traditional 48"x72" competition glass backboard
- Cushioned 1/2" tempered glass
- Regulation white border and shooters square fired into glass
- Meets all NCAA and H.S. specifications
- 10-Year Limited Warranty
- Approx. Shipping Weight: 210 lbs.

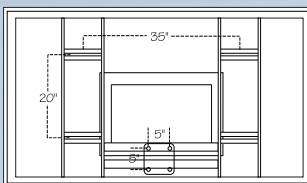

Note: Traditional 48"x72" backboards are still used in many high schools and colleges today. The FT236 should be purchased for replacement only. For new installations or complete gym conversions, First Team recommends the newer 42"x72" backboards because of reduced risk of player injury due to contact with the board.

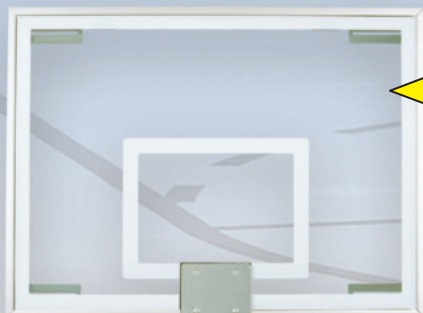

FT241

- Traditional 48"x72" competition glass backboard
- Mounts directly to structures where fan-shaped boards previously existed
- Cushioned 1/2" tempered glass
- Regulation white border and shooters square fired into glass
- Meets all NCAA and H.S. specifications
- 10-Year Limited Warranty
- Approx. Shipping Weight: 230 lbs.

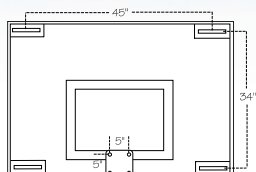

Note: Traditional 48"x72" backboards are still used in many high schools and colleges today. The FT241 should be purchased for replacement only. For new installations or complete gym conversions, First Team recommends the newer 42"x72" backboards because of reduced risk of player injury due to contact with the board.

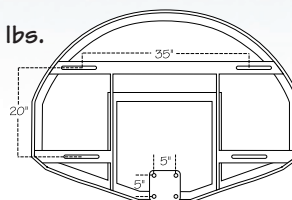

FT231

- Down-sized 40"x54" tempered glass backboard
- Same quality construction as our FT234 competition board
- Cushioned 1/2" tempered glass
- Heavy duty aluminum framework
- White border and shooters square
- Great for use anywhere regulation sized boards are not needed
- 10-Year Limited Warranty
- Approx. Shipping Weight: 150 lbs.

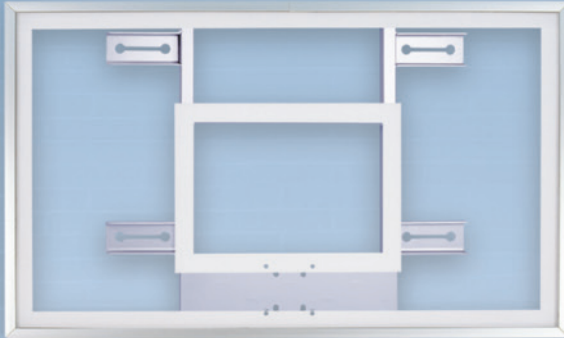

FT233

- Traditional fan-shaped 39"x54" competition glass backboard
- Cushioned 1/2" tempered glass
- Heavy duty aluminum framework
- Regulation white border and shooters square fired into glass
- Meets all NCAA and H.S. specifications
- 10-Year Limited Warranty
- Approx. Shipping Weight: 120 lbs.

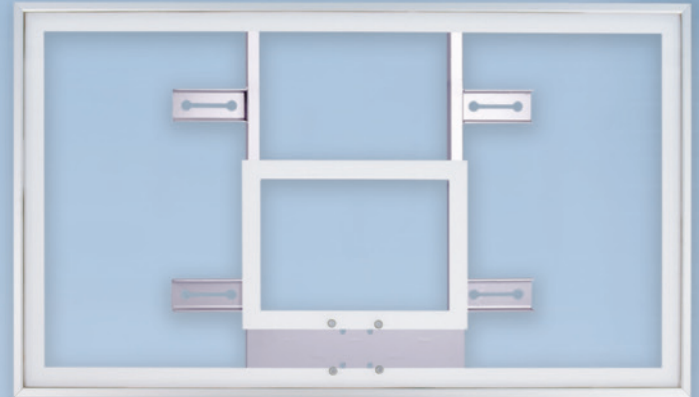

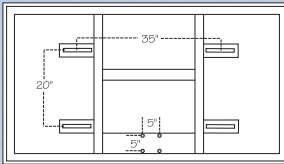

OTHER GYMNASIUM BACKBOARDS

the SIX-SHOOTER™

6-IN-1 YOUTH TRAINING GOAL

First Team's Six-Shooter youth training goal is the most versatile youth training goal on the market! Only Six-Shooter is capable of being configured for six different rim heights. When installed on a standard 10' high goal, Six-Shooter can be set up for 6½', 7', 7½', 8', 8½', and 9' rim heights. Requiring only two minutes to change unit from one goal height to another, Six-Shooter accommodates programs running multiple leagues at different age levels. No tools required!

Six-Shooter will fit any style rim, regardless of age or manufacturer. A Six-Shooter unit lowers rim and moves rim 24" closer to the free-throw line. A regulation size rim is included. High impact white ABS plastic backboard measures 39" high and 48" wide and has red shooter's square and border machined into face. Entire system weight is 49# allowing one person standing no more than 24" above playing surface to quickly and easily attach unit to a 10' high goal. Unit is not suitable for dunking or hanging from goal. Entire unit is covered by a Lifetime Limited Warranty.

• Adjusts to 6 playing heights

• Folds easily for transport & storage

• 49# lifting weight

- Super strength flex goals are "direct mounted" to eliminate backboard stress
- Easy adjustment from the ground with included handle
- Optional bolt-on TuffGuard™ backboard padding available in several colors

The RoofMaster offers infinite adjustability for the customer who has no place for a pole mounted system.

No other system compares to the RoofMaster from First Team. The unit is versatile enough to mount to virtually any roof pitch. The RoofMaster is infinitely

adjustable with the industry's widest range of height adjustment. With a simple turn of the hand-crank the RoofMaster offers an adjustment range of up to 2 ½ feet (10' - 7 ½').

An easy-to-read rim height indicator displays the exact height of the rim.

We offer several backboards and rims with the RoofMaster so you can choose the package that's right for you and your budget.

For player safety, First Team offers optional backboard padding for each RoofMaster system.

Every RoofMaster package comes with a Lifetime Limited Warranty.

the CHAMP™

ADJUSTABLE BASKETBALL SYSTEM

- Backboards available in acrylic or glass
- Super strength flex goals are "direct mounted" to eliminate backboard stress
- Optional bolt-on TuffGuard™ backboard padding available in several colors
- Insta-Just™ height adjustment. No need for tools or a ladder. A simple broom handle allows you to adjust rim height from 10'-7"6" in 6" increments.
- Optional all-weather velcro wrap-around post padding for added safety (See padding section for available colors)
- Post is buried 36" below playing surface (FT16 ground sleeve option can be purchased to make post removable)

The Champ offers adjustability at an affordable price!

The Champ's 4"x4" 11 ga. steel post is 50% heavier than any goal of its kind. Our one piece post design eliminates wobbling, rusting joints common with sectional type posts.

Our Insta-Just™ height adjustment mechanism allows the Champ to adjust from 10' to 7'6" in six inch increments. To adjust, use a broom handle to release the Insta-Just™ height regulator.

A variety of backboards and rims are offered with the Champ so you can choose the Champ package that's right for you.

For additional safety, pole padding and backboard padding can be added to any Champ package.

Every Champ package comes with a Lifetime Superior Warranty.

- Optional Bolt-down Baseplate

- Post to backboard extension distance is 18" with rim at 10' (Extension distance increases as rim height is lowered)

the SLAM™

ADJUSTABLE BASKETBALL SYSTEM

- Backboards available in acrylic or glass
- Super strength flex goals are "direct mounted" to eliminate backboard stress
- Optional bolt-on TuffGuard™ backboard padding available in several colors
- Springs located in the extension assembly counter balance the weight of the backboard and rim. Adjustment is effortless.
- Optional all-weather velcro wrap-around post padding for added safety (See padding section for available colors)
- Quik-Pin™ height adjustment design makes adjusting the SLAM effortless and safe. Unit adjusts from 10'-7" in 6" increments.
- Post is buried 36" below playing surface (FT16 ground sleeve option can be purchased to make post removable)

- Post to backboard extension distance is 24" with rim at 10' (Extension distance increases as rim height is lowered)
- Optional Bolt-down Baseplate

The Slam offers a unique combination of adjustability, durability and affordability! The Slam includes a heavy 4"x4" 11 ga. steel post. Our one piece post design eliminates the potential for joint deterioration common with sectional posts.

The Quik-Pin™ rim height adjustment design makes adjusting the Slam quick and easy. To adjust, simply pull the pin located on the back of the unit, lift the adjustment handle to the desired rim height, replace the pin and you're ready for action. The Slam is adjustable from 10' to 7' in six inch increments. The Slam's spring aided design insures that adjustment is effortless.

Various backboards and rims are offered with the Slam so you can choose the Slam package that fits your family.

For additional safety, pole padding and backboard padding can be added to any Slam package. Every Slam package comes with a Lifetime Superior Warranty.

the VECTOR™

ADJUSTABLE BASKETBALL SYSTEM

- Backboards available in acrylic or glass
- Optional bolt-on TuffGuard™ backboard padding available in several colors
- Optional all-weather velcro wrap-around post padding for added safety (See padding section for available colors)
- Springs located in the extension assembly counterbalance the weight of the backboard and rim. Adjustment is effortless.
- Simple hand crank adjustment easily adjusts rim height from 10' - 7'
- Hand crank is removable
- Post is buried 36" below playing surface. (FT16 ground sleeve option can be purchased to make post removable.)
- Optional Bolt-down Baseplate

- Super strength flex goals are "direct mounted" to eliminate any chance of backboard breakage
- Post to backboard extension distance is 32" with rim at 10' (Extension distance increases as rim height is lowered)

The Vector provides the easiest and most economical way to get infinite height adjustment and great performance in one affordable package.

First Team's Vector basketball system includes our heavy one piece 11 ga. 4"x4" post design that eliminates the risk of joint deterioration common with sectional type posts.

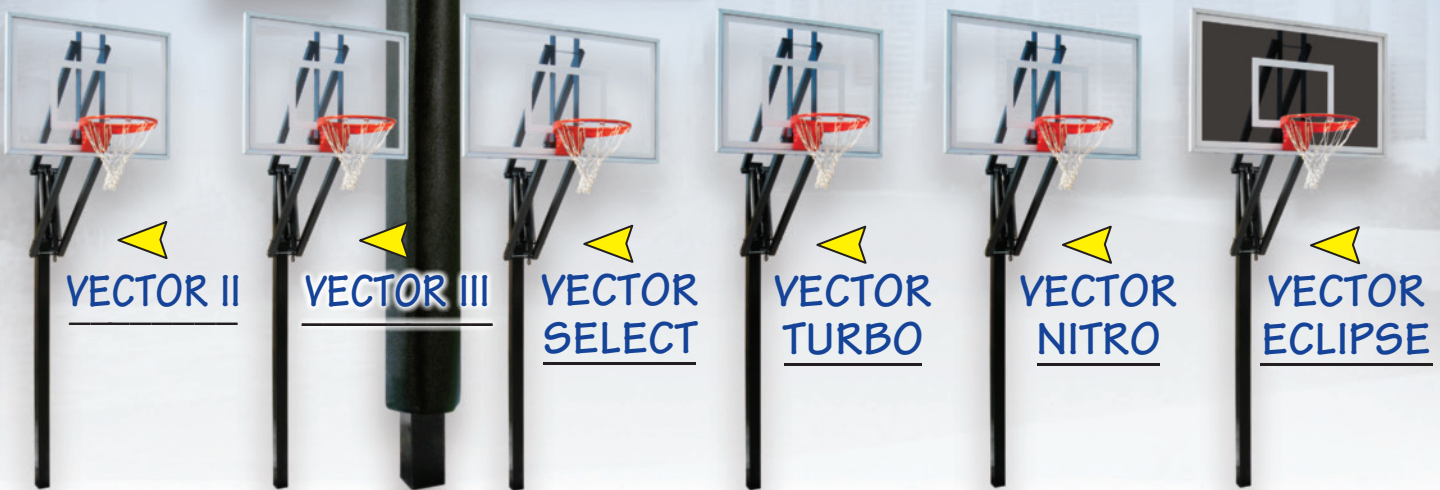

The Vector's unique front-mount EZ Crank is a great choice, especially when a wall or other obstruction makes installing a rear-cranking unit impossible. First Team is the ONLY manufacturer to offer a front-mount EZ Crank with SPRING-ASSIST. Our spring-aided crank design is the easiest to operate in the industry and allows the rim height to quickly be adjusted anywhere from 10' down to 7'. The crank handle is removable to prevent unwanted adjustment. The clear and precise rim height indicator shows the rim height at all times.

All Vector packages include a breakaway goal and net. A variety of backboards are available ranging from 36"x48" to 36"x60". Choose the package that's right for your home court.

For additional safety, pole padding and backboard padding can be added to any Vector package.

Each Vector system comes with a Lifetime Superior Warranty.

the

ATTACK™

ADJUSTABLE BASKETBALL SYSTEM

- Extensive backboard selection
- All First Team goals are "direct mounted" to eliminate backboard breakage when players hang on the rim.
- Optional all-weather velcro wrap-around post padding for added safety (See padding section for available colors)
- Unique anchor system allows perfect pole leveling and easy pole removal if you move.
- Spring Assist™ makes goal adjustments effortless. Rim height indicator shows exact height.
- Stainless Steel EZ Crank™ allows infinite height adjustment from 10' to 5'6"
- Optional TuffGuard™ bolt-on backboard padding available in several colors
- Post to backboard extension distance is 36" with rim at 10' (Extension distance increases as rim height is lowered)

NOW WITH WEATHERGUARD™ RUSTPROOF UNDERCOAT PROTECTION

The Attack offers infinite adjustability and maximum durability all rolled into one!

The Attack's 4" square post is 3/16" thick. That's 50% heavier than any other goal in its category. The bolt down anchor system allows you to take the goal with you when you move.

Our EZ-Crank™ adjustment means players of any age, size or ability can change the rim height. To adjust, simply turn the crank handle. The Attack is infinitely adjustable from 10' down to 5'6". The rim height indicator shows the height of the rim.

First Team developed the "Spring Assist" which reduces the effort required to crank the goal. This is particularly beneficial for families with young children adjusting the unit.

We offer a large selection of backboards and rims with the Attack so you can customize the unit to suit your needs and style of play. Our Response™ tempered glass backboards offer the same look and authentic ball rebounds enjoyed by college and professional players.

For additional safety, pole padding and backboard padding are available for most Attack packages.

All Attack packages have a Lifetime Superior Warranty.

The PowerHouse 5 offers all of the great features you need at a price that will put you in the game!

The PowerHouse series of basketball systems was designed with performance, aesthetic appeal and economy in mind. The unit is built with a one-piece 5"x5" vertical post that incorporates our bolt-down anchor base for ease of assembly and relocation. The rim height is infinitely adjustable by simply turning the EZ Crank handle. The rim height indicator shows the height of the rim. Our Y-shaped extension arms and steel perimeter framed tempered glass backboard combine with First Team's exclusive CLEARSPAN™ backboard mounting making PowerHouse the most powerful and aesthetic units available in their price range!

For additional safety, pole padding and backboard padding can be added to any PowerHouse package.

When you're looking for a crank adjustable basketball system that looks as great as it performs, the CLEAR choice is POWERHOUSE!

PowerHouse 5 systems carry a Limited Lifetime Warranty.

the HYDROCHAMP™

ADJUSTABLE BASKETBALL SYSTEM

- Selection of various clear acrylic backboards in sizes ranging from 36"x48" to 36"x60"

- Special zinc undercoating protects against rust

- Welded top cap seals out moisture

- All components are powder coated black.

- Insta-Just™ height adjustment. No need for tools or a ladder. A simple broom handle allows you to adjust rim height in 6" increments.

- Stainless Steel post & anchor bolts

- Protective cover hides anchor bolts

First Team's making a splash with the HydroChamp! The HydroChamp makes a great unit for adjustable poolside basketball. The bolt down 4"x4" stainless steel post and adjustable adjustable arm system combine for a durable, economical and aesthetically pleasing poolside unit. All components are powder-coated black.

To adjust the backboard height, simply release the adjustment mechanism located behind the rim. Unit has a 30" rim adjustment range, adjustable in 6" increments.

Unit is secured to pool deck using anchor bolts supplied with unit. Anchor base cover is also included. Choose from three backboard sizes 48", 54" or 60". The HydroChamp is the perfect unit for anyone looking for a high quality, professional looking poolside basketball unit. Give your pool the home court advantage with First Team's HydroChamp! Each HydroChamp package is covered by our Lifetime Limited Warranty!

the HYDROSHOT™

ADJUSTABLE BASKETBALL SYSTEM

- All components are powder coated black.

- Selection of various clear acrylic backboards in sizes ranging from 36"x48" to 36"x60"

- Massive 4"x4" (3/16" wall) stainless steel post gives incredible stability to unit

- EZ Crank™ adjustment allows infinite height adjustment from 10' - 6'6"

- Special zinc undercoating protects rim against rust

- Optional bolt-on TuffGuard™ backboard padding available in several colors

- Tubular "H-Frame" design provides best backboard mounting available.

100%
stainless steel pole system construction!
Ensures lifelong performance!

- Direct rim mount design

- Post to backboard extension distance is 36" with rim at 10' (Extension distance increases as rim height is lowered)

- Rim height lowers to 25" above mounting surface.

- Protective cover hides anchor bolts

The HydroShot brings premium grade basketball performance to your poolside! For those who love to hoop it up while they splash around, First Team introduces the HydroShot STAINLESS STEEL adjustable poolside basketball system. The HydroShot's 4" square post and dual strut extension arm make a "tough as nails" poolside unit that will NEVER RUST!! No more flimsy, plastic models. The HydroShot will far exceed your expectations for a poolside basketball unit.

The HydroShot comes complete with your choice of three clear, professional looking acrylic backboards and breakaway rim. To adjust the unit, simply turn the crank handle positioned for easy access from the pool deck. The unit is infinitely adjustable from regulation 10' down to 6'6". An easy-to-read height indicator is provided as well.

Designed for commercial waterparks, the HydroShot also makes a first class residential poolside hoop. First Team's unique anchor bolt installation design allows you to easily relocate the unit if you ever need to. An anchor bolt cover is provided with each unit.

the HYDROSPORT™

FIXED HEIGHT BASKETBALL SYSTEM

- Selection of various clear acrylic backboards in sizes ranging from 36"x48" to 36"x60"

- Welded top cap seals out moisture

- All First Team goals are "direct mounted" to eliminate backboard breakage when players hang on the rim.

- Special zinc undercoating protects against rust

- Optional bolt-on TuffGuard™ backboard padding available in several colors

- All components are powder coated black.

- Post to backboard extension distance is 24"

- 4"x4" post gives incredible stability to unit

- Stainless Steel post & anchor bolts

- Protective cover hides anchor bolts

The HydroSport offers a professional look for your poolside at an affordable price!

The HydroSport's black powdercoated 4"x4" stainless steel post is designed with a bolt down anchor system similar to our upper end driveway basketball systems. The unit is secured to the pool deck using four stainless steel anchor bolts provided with unit. An ABS plastic anchor cover is also included. The HydroSport's extension arm is also powdercoated black and attaches to the post via U-bolts.

Though the HydroSport is considered a "Fixed Height" goal, the U-bolts can be loosened allowing the arm to be re-attached at any given height along the post.

A variety of backboards are available on the HydroSport. Pick the package that is right for your pool.

Each HydroSport basketball system is covered by First Team's Lifetime Limited Warranty.

the SPORT™

FIXED HEIGHT BASKETBALL SYSTEM

- Super strength flex goals are "direct mounted" to eliminate any chance of backboard breakage

- Selection of various clear acrylic backboards. Sizes range from 36"x48" to 36"x60"

- Optional bolt-on TuffGuard™ backboard padding available in several colors

- Optional Bolt-down Baseplate

- Our one piece 4"x4" 11 ga. (1/8" wall) post is the heaviest of its kind in the industry

- Post to backboard extension distance is 24"

- Optional all-weather velcro wrap-around post padding for added safety (See padding section for available colors)

- Post is buried 36" below playing surface. (FT16 ground sleeve option can be purchased to make post removable.)

The Sport offers a professional look at an affordable price!

The Sport's 4"x4" 11 ga. steel post is 50% heavier than any goal of its kind. Our one piece post design eliminates the potential for joint deterioration common with sectional type posts.

The extension arm on the Sport is attached to the vertical post using two heavy duty U-bolts. Though the Sport is considered a "Fixed Height" goal, the U-bolts can be loosened allowing the arm to be re-attached at any given height along the post.

A variety of backboards and rims are offered with the Sport so you can choose the Sport package that's right for you.

For additional safety, pole padding and backboard padding can be added to any Sport package.

Every Sport package comes with a Lifetime Limited Warranty.

the LEGACY™

FIXED HEIGHT BASKETBALL SYSTEM

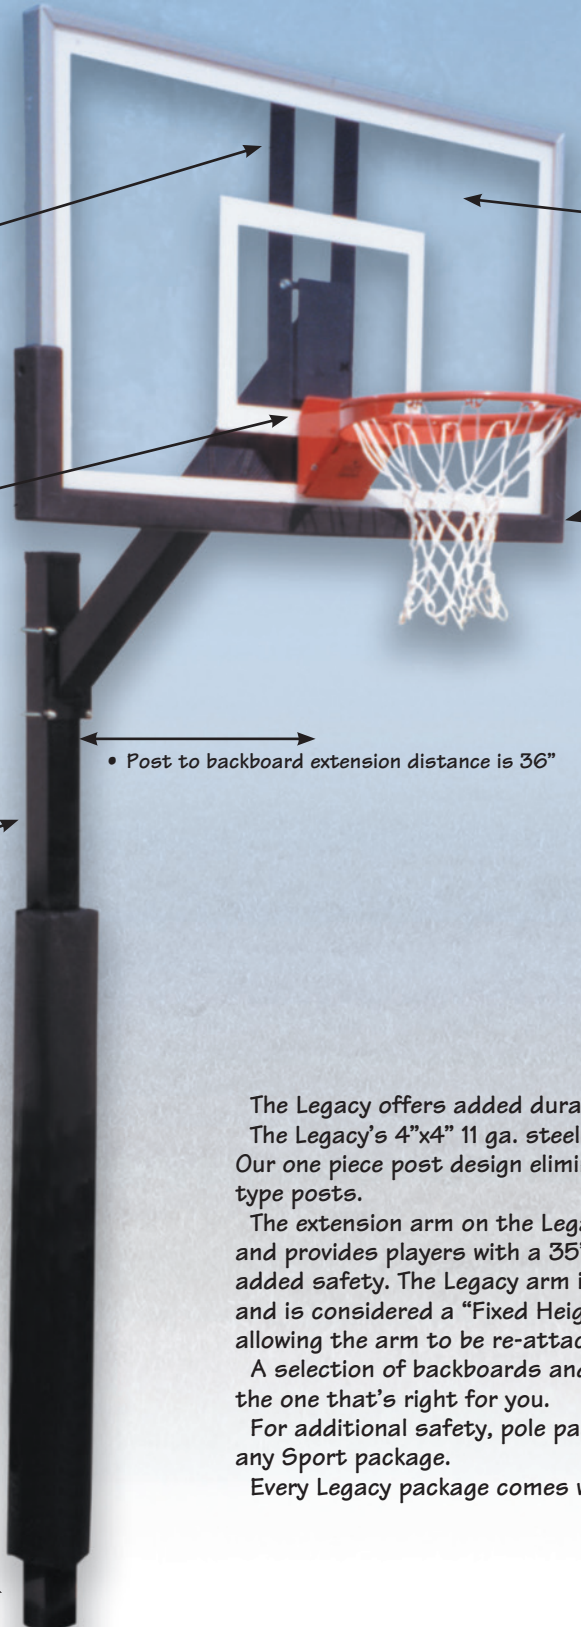

- H-Frame backboard brace for simple installation and excellent backboard rigidity

- Super strength flex goals are "direct mounted" to eliminate any chance of backboard breakage

- Our one piece 4"x4" 11 ga. (1/8" wall) post is the heaviest of its kind in the industry

- Optional all-weather velcro wrap-around post padding for added safety (See padding section for available colors)

- Post is buried 36" below playing surface. (FT16 ground sleeve option can be purchased to make post removable.)

- Selection of various clear acrylic, tempered glass & aluminum backboards. Sizes range from 36"x48" to 36"x60"

- Optional bolt-on TuffGuard™ backboard padding available in several colors

- Post to backboard extension distance is 36"

- Optional Bolt-down Baseplate

The Legacy offers added durability and safety without exceeding your budget!

The Legacy's 4"x4" 11 ga. steel post is 50% heavier than any goal of its kind. Our one piece post design eliminates joint deterioration common with sectional type posts.

The extension arm on the Legacy is constructed of tough 4"x4" square tubing and provides players with a 35" extension distance from post to backboard for added safety. The Legacy arm is attached to the vertical post using U-bolts and is considered a "Fixed Height" goal. However, the U-bolts can be loosened allowing the arm to be re-attached at any given height along the post.

A selection of backboards and rims are offered with the Legacy so you can pick the one that's right for you.

For additional safety, pole padding and backboard padding can be added to any Sport package.

Every Legacy package comes with a Lifetime Limited Warranty.

the

LEGEND JR.™

FIXED HEIGHT BASKETBALL SYSTEM

- Extension arm is constructed of 5"x5" (3/16" wall) solid steel tubing
- Extensive backboard selection is available
- Optional TuffGuard™ all-weather bolt-on backboard padding available in several colors
- All First Team goals are "direct mounted" to eliminate backboard breakage when players hang on the rim.
- Tough 5"x5" (3/16" wall) one piece steel post
- Post to backboard extension distance is 52"
- Optional Bolt-down Baseplate
- Optional all-weather velcro wrap-around post padding for added safety (See padding section for available colors)
- Post is buried 42" below playing surface. (FT17 ground sleeve option can be purchased to make post removable.)

The Legend Jr. offers a combination of playground durability and professional performance!

The Legend Jr.'s vertical post and extension arm are both constructed of rugged 5" square 3/16" thick tubular steel. Combined they provide top-notch performance in both durability and rigidity. The post is set back 52" for added safety.

The extension arm on the Legend Jr. is attached to the vertical post using six high tensile 5/8" bolts. Though the Legend Jr. is considered a "Fixed Height" goal, the extension arm can be bolted at any height along the post.

First Team offers a large selection of backboards and rims with the Legend Jr. Choose a Legend Jr. package with one of our Response™ tempered glass backboards if you are wanting authentic gymnasium style ball reaction. Our popular Legend Jr. Dual packages add a second extension arm, backboard and rim to the opposite side of the post to maximize playing area on the playground.

For added safety, pole padding and backboard padding are available for most Legend Jr. packages.

Every Legend Jr. package comes with a Lifetime Superior Warranty.

The Legend offers exceptional rigidity, uncompromising durability and maximum safety even on the toughest courts!
Built from heavy 6" square, 3/16" thick steel tubing, the Legend provides unmatched stability and durability. Designed for the most rugged playgrounds, the Legend performs equally well on the home court. The post is positioned 66" behind the backboard for safety.
The extension arm on the Legend is attached to the vertical post via six 5/8" high tensile bolts. Though the Legend is considered a "Fixed Height" goal, the extension arm can be bolted at any height along the post.
First Team offers an array of backboards and rims with the Legend. Our Response™ tempered glass backboard offers the same look and authentic ball rebound enjoyed by college and professional players. Our popular Legend Dual packages add a second extension arm, backboard and rim to the opposite side of the post to maximize playing area on the playground.
For additional safety, pole padding and backboard padding are available for most Legend packages.
Every Legend package comes with a Lifetime Warranty.

the RENEGADE™

FIXED HEIGHT BASKETBALL SYSTEM

- Extensive backboard selection. Backboards are available in steel, aluminum, fiberglass or clear acrylic. Sizes vary from 36"x48" to 42"x72".

- Backboard braces for superior backboard rigidity

- Vinyl post cap seals out moisture

- Extension arm and braces are powdercoated

- Extension arm clamps to vertical post using U-bolts. Extension arm can be moved by loosening U-bolts

• Post to backboard extension distance is 48"

The Renegade offers commercial durability and the added flexibility sometimes needed on the playground.

The Renegade post is constructed of 4 1/2" O.D. galvanized schedule 40 tubing. The post buries into the concrete a full 48" deep. A vinyl top cap seals out moisture.

The extension arm on the Renegade is attached to the vertical post using two heavy duty U-bolts. Though the Renegade is considered a "Fixed Height" goal, the U-bolts can be loosened, allowing the arm to be re-attached at any given height along the post.

An extensive selection of backboards and rims are available on the Renegade. Choose the package that fits your needs.

Every Renegade package comes with a 20-Year Limited Warranty.

- Super tuff flex or fixed goals are "direct mounted" to eliminate backboard stress.

the RUFFNECK™

FIXED HEIGHT BASKETBALL SYSTEM

- Extensive backboard selection
- Heavy-Duty 4 1/2" O.D. schedule 40 post
- Post is weather resistant galvanized
- "Nose-cone" backboard mounting design with through-bolt permanently locking "Nose-cone" to post

The RuffNeck offers exceptional durability at a price that meets any budget.

The RuffNeck is a "Fixed Height" pole system constructed of 4 1/2" O.D. galvanized schedule 40 tubing. The direct rim mount design allows the rim to be mounted through the backboard and into the post, eliminating backboard stress. The backboard is further supported by two tubular braces fixed to the neck of the post.

Our unique "nose-cone" backboard mounting design makes backboard installation simple.

First Team offers a wide variety of backboard & rim styles on the RuffNeck system, allowing you to select the perfect RuffNeck package for your application. Every RuffNeck package comes with a Lifetime Limited Warranty.

- First Team goals are "direct mounted" to eliminate backboard stress

• Post to backboard extension distance is 48"

- Post is buried 48" below playing surface.

the BRUTE™

FIXED HEIGHT BASKETBALL SYSTEM

- Extensive backboard selection. Backboards are available in steel, aluminum, fiberglass or clear acrylic. Sizes vary from 36"x54" to 42"x72".

- Heavy-Duty 5 9/16" O.D. schedule 40 galvanized post.

- "Nose-cone" backboard mounting design with through-bolt permanently locking "Nose-cone" to post.

- First Team goals are "direct mounted" to eliminate backboard stress.

First Team's BRUTE fixed height basketball systems are a step ahead of the rest when it comes to playground rigidity, performance and durability!

The Brute series of basketball packages are built with a stable 5 9/16" diameter galvanized post. The post extension allows for 72"-78" of run-out room and is designed with First Team's unique nosecone style backboard mounting making backboard installation and setup a breeze.

The Brute is built to take whatever punishment comes its way and is fully covered by First Team's exclusive LIFETIME UNCONDITIONAL WARRANTY!

For added safety, pole padding and backboard padding are available for any Brute basketball package.

So don't get bullied into purchasing inferior units. Give your playground court added toughness and performance season after season with the BRUTE!

- Post is buried 48" below playing surface.

- Post to backboard extension distance is variable from 72"-78"

the

TYRANT™

FIXED HEIGHT BASKETBALL SYSTEM

- Extensive backboard selection. Backboards are available in steel, aluminum, fiberglass or clear acrylic. Sizes vary from 36"x54" to 42"x72".

- Heavy-Duty 6 5/8" O.D. schedule 40 galvanized post.

- "Nose-cone" backboard mounting design with through-bolt permanently locking "Nose-cone" to post

- First Team goals are "direct mounted" to eliminate backboard stress

When it comes to the playground, no other basketball system can stand up to the TYRANT! First Team's Tyrant basketball system is our largest, most rigid basketball system yet! With its incredible 6 5/8" diameter galvanized post and outstanding 72"-78" overhang, the Tyrant stands alone as the country's leading playground basketball system.

First Team has incorporated its easy to install nosecone into the Tyrant pole structure design. This makes installing the backboard much easier, minimizing backboard lifting when installing the backboard. The Tyrant is INDESTRUCTIBLE and First Team backs it with our LIFETIME UNCONDITIONAL WARRANTY!

For added safety, pole padding and backboard padding are available for any Tyrant basketball package.

So why let your basketball court be run down by other systems that can't hold up? Let First Team show you the true meaning of reliability and toughness with the TYRANT!

- Post is buried 48" below playing surface.

- Post to backboard extension distance is variable from 72"-78"

• Vertical slots allow perfect 10' rim height

Pole
Not
Included

First Team RetroFit36 backboard packages are a perfect, hassle free choice for replacing old, worn out backboards on existing basketball posts.

Each RetroFit36 backboard package includes backboard, rim and easy-mount RetroFit36 h-frame bracket. The RetroFit36 bracket is built with two vertical slots on the back side of the bracket. These slots are positioned 5" apart horizontally. Because the slots are 5" apart, it is recommended that the attachment plate at the end of the existing basketball post be at least 6"x 6" in size. NOTE: Four holes may need to be drilled into the mounting plate on the neck of the post to match the 5" slot dimension. Once attached, the vertical slots in the

RetroFit36 bracket will allow the backboard and rim to be fine-tuned so perfect 10' rim height can be reached.

The RetroFit36 is available with a variety of backboard and rim options. Check below for package options. For additional safety, First Team offers backboard padding available in a variety of colors to fit any RetroFit36 package. First Team also offers a wide range of post pads to protect players from running into the basketball post.

Why tear out a perfectly good basketball post just because the backboard is worn out? Refurbish it with First Team RetroFit36 basketball backboard combos and get back in the game!

How to Order Custom Lettering for Padding:

First Team offers free custom lettering on most, but not all padding with the purchase of a complete system. Check catalog for lettering availability or call First Team for details.

Choose from 3 font styles, shown at right. Each font is available with or without a background color. Choose lettering color (foreground) from the colors shown below. If applicable, choose background color. Add the necessary elements to the padding model number to be lettered as shown in the examples:

FT81BC

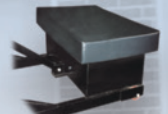

- Protective padding for RollAbout ballast boxes (set of 2)

- Makes box corners much safer
- 2" thick foam vinyl covered pad
- All-weather pad slips on and off
- 1-Year Limited Warranty
- Approx. Shipping Weight: 10 lbs.

FT82BC

- Protective padding for Rampage ballast box

Font Style #1: LTR 78: 1 RY HUTCH

In this example, customer wants to letter on FT78 pole pad, using font style #1 with royal blue letters. Customer does not want a background color.

Font Style #2: LTR 78: 2 RY - WH HUTCH

In this example, customer wants font style #2 with royal blue foreground letters and white background outline.

Maximum 10 letters per pad. First Team art department will space letters accordingly.

COURT VISION™

SOLAR POWERED COURT LIGHT

First Team

First Team's Court Vision solar powered court light is the first of its kind. No more cheap, flimsy, lightweight court lights attached to the basketball pole that shake when the ball hits the rim. This free-standing court light illuminates the playing surface without shaking due to vibration from gameplay. The post is made from 4" square aluminum for weather proof durability and has 3/4" radius corners for player safety. The components all have a black powder coat finish. The lamp sits approximately 16' above the playing court and provides 12,000 lumens to light up the night. The unit is designed to be installed without special lifting equipment. The hinged anchor base allows the post and lamp to be 100% assembled at ground level before standing upright. The anchor bolt installation allows easy post leveling making installation a breeze. Solar design saves money on your utility bill and saves you money on installation because there is no need to call an electrician out to wire power to the court. The commercial grade solar panel/battery on top of the lamp collects and stores enough power to stay lit for 16 hours without need for recharge so even a cloudy day won't shut down your game at night. Each unit includes a wireless remote for easy on/off control. First Team's Court Vision solar light has a shipping weight of 150 lbs. and is covered by a 5-year limited warranty.

First Team introduces our Superstar lineup of custom folding chairs. Show your school or company spirit by choosing the Superstar line that fits your needs and budget. We offer Superstar chairs at three levels. Our Superstar Impression line can be customized with digitally printed graphics to match whatever design your imagination can create. Our Superstar Attitude chairs are available with several pre-printed sport designs and can be customized with name or logo on backrest frame for an additional charge. For the even more budget conscious we offer Superstar Classic. With Superstar Classic, simply choose your cushion color. All chair frames are black. Add optional graphics on backrest frame if desired for a more personalized touch. Superstar Impression chairs are great for school sports teams or corporate group seating. Superstar Attitude and Superstar Classic chairs make great gifts for the sports lover or school athlete in your family. Don't settle for smaller chairs that use thinner foam and tiny backrest supports. Let First Team show you why Superstar chairs are quickly becoming America's number one choice for superior customized sports seating.

EACH SUPERSTAR CHAIR FEATURES:

- Extra Thick 3" Foam Seat Cushion for Comfort
- 1" Thick Foam Backrest Cushion
- 30 oz. Vinyl Cushion Covers, 10 Colors or Printed
- Powder Coated Chair Frame
- Heavy Duty Chair Frame, Rated to 400 lbs.
- XL Backrest for Superior Comfort vs. Competition
- Rubber Cap Floor Protectors

the SPORTZONE LUXURY STADIUM CHAIR

TM **First Team**

- Zippered Storage Pocket on Back

Stadium bleacher planks can be hard to sit on for extended periods of time and many stadium chairs don't provide the cushion or support needed to stay comfortable all the way to the end of the game.

Lasting comfort and convenience are what you get when you pick the SPORTZONE luxury stadium chair by First Team. Created for your viewing pleasure, Sportzone is unequaled in both design and function.

The 2" thick padded seat cushion ensures a comfortable seat all game long. Zippered storage pocket provides a convenient place to store a game program or other belongings. Our unique two position cupholder means no more kicking over your drink while it sits at your feet.

The Sportzone is manufactured from high tensile strength aluminum so it is strong, yet lightweight and easy to carry. A built in safety hook is provided that can be used to engage the bleacher plank to prevent accidental back tipping.

Full color graphics can be printed on the back of each backrest so you can customize to your favorite team, player or event.

When you are searching for the best in viewing comfort and performance, stay with a trusted name that's in everyone's comfort zone, Sportzone!

First Team introduces the Teammate line of portable and fixed player benches. All Teammate player benches use 9 5/8" x 1 3/4" anodized aluminum planking for seats and backrests. Support legs and backrest brackets are powdercoat painted black, steel construction. Legs are spaced on 6'0" centers. Portable player benches include rubber floor protectors to prevent floor damage.

Teammate player benches are available in 8', 15' and 21' lengths with and without backrests. "Fixed" benches are cemented in ground for a permanent installation, while "Portable" benches are freestanding allowing them to be easily moved. All planks include end caps for a finished look with no sharp edges.

For added school spirit, consider ordering benches in custom colors. First Team can powdercoat seat planks and backrests up to 15' lengths in a variety of colors for a minimal charge. See below for color availability.

Choose the Teammate player bench meets your seating needs. See chart for seating capacity. All Teammate player benches are covered by First Team's Lifetime Limited Warranty!

Seatplanks & backrests available in colors up to 21' lengths.

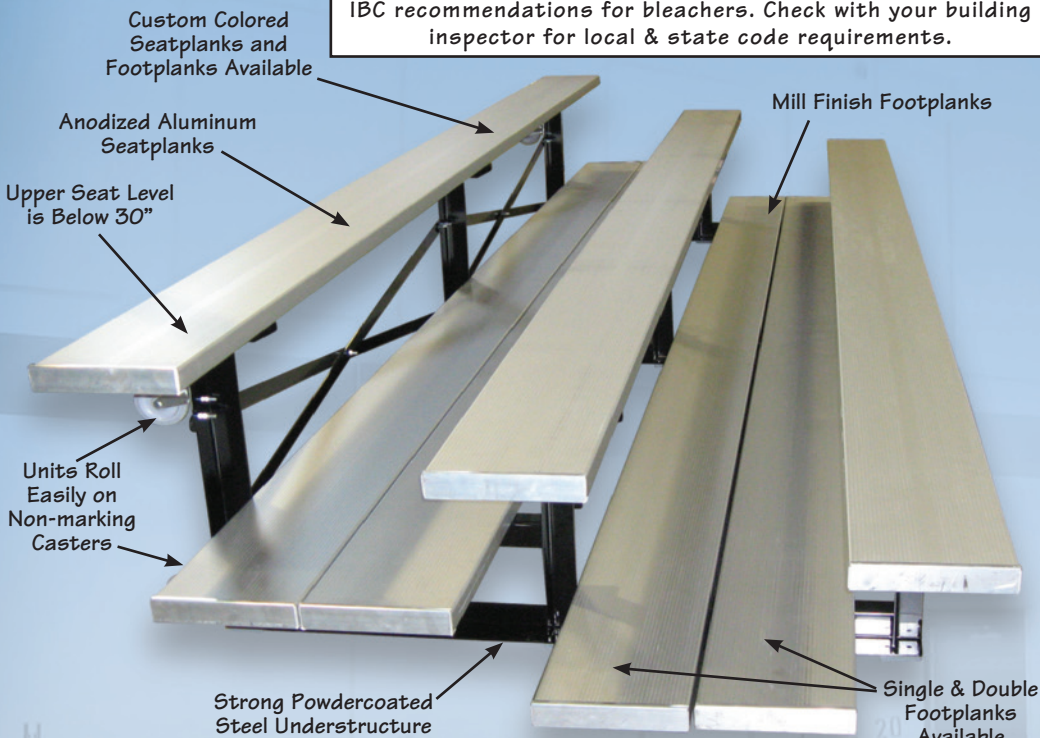

Available Colors:
Scarlet, Royal Blue, Navy Blue, Forest Green, Kelly Green, Gold, Orange, Purple, Black, White

the FANSTAND™

INDOOR TIP-N-ROLL BLEACHERS (2, 3 & 4 ROW)

First Team Tip-N-Roll Bleachers meet guidelines set by 2002 IBC recommendations for bleachers. Check with your building inspector for local & state code requirements.

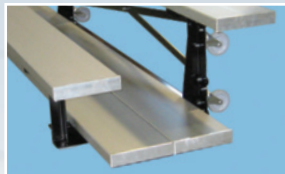

Give your gym seating the versatility you need with First Team's new line of FanStand indoor tip-n-roll bleachers.

First Team's line of indoor tip-n-roll bleachers make providing added spectator seating a breeze. All seats use 9 5/8" x 1 3/4" anodized aluminum planking. Walk planks are 9 5/8" x 1 3/4" mill finished aluminum. FanStand bleachers are available with single or double wide walk planks. 4" tip n roll wheels are secured to back seat support to make bleachers portable. Simply tilt bleacher backwards onto wheels to roll.

First Team's FanStand bleachers are designed so the highest seat level is below 30" above ground level, eliminating the need for safety railing. Basic framing is all welded structural angle with bolted cross bracing to maximize bleacher strength for end shift loads. Framing is spaced on six foot centers. 2 1/2" rubber floor protectors are used on the bottom of frame to protect finished floors. Steel under structure is powder coat painted black.

Choose the FanStand bleacher that meets your seating needs. xSee chart for seating capacity. All FanStand bleachers are covered by First Team's Lifetime Limited Warranty!

the FANSTAND™

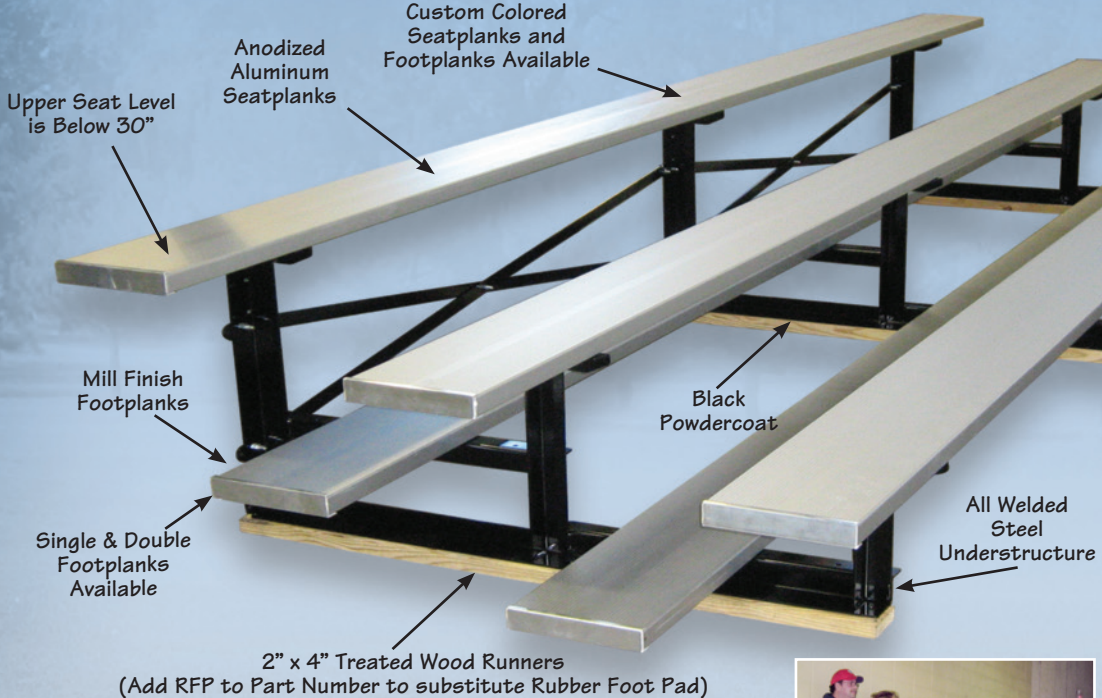

OUTDOOR BLEACHERS

(2, 3 & 4 ROW)

First Team FanStands™ meet 2002 IBC recommendations for bleachers. Check with your building inspector for local & state code requirements.

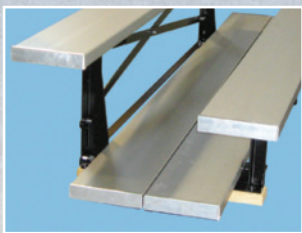

First Team's line of FanStand outdoor bleachers sets the standard for safety and affordability! First Team's line of outdoor bleachers makes providing added spectator

seating safe and affordable. All seats use 9 5/8" x 1 3/4" anodized aluminum planking. Walk planks are 9 5/8" x 1 3/4" mill finished aluminum. FanStand bleachers are available with single or double wide walk planks. First Team's FanStand

bleachers are designed so the highest seat level is below 30" above ground level, eliminating the need for safety railing. Basic framing is all welded structural angle with bolted cross bracing to maximize bleacher strength for end shift loads. Framing is spaced on six foot centers. Treated 2"x4" wood runners are bolted to the bottom of each frame to provide improved stability on soft surfaces. Rubber foot pads may be substituted upon request. Steel under structure is powder coat painted black.

Choose the FanStand bleacher that meets your seating needs. See chart for seating capacity. All FanStand bleachers are covered by First Team's Lifetime Limited Warranty!

the **TOMAHAWK**TM
MEGADUTY TETHERBALL SET

First Team is proud to offer the TOMAHAWK mega duty tetherball set.

Our Tomahawk is the only tetherball pole you will ever need to buy. Constructed of one piece 2 3/8" diameter steel pipe with an exceptional 3/16" wall thickness, the Tomahawk will stand straight and true outperforming standard cheap thin wall, multi section posts.

The unit includes a high quality tetherball & rope with a recessed connection for player safety. Choose from standard in-ground installation with "TOMAHAWK PM" or choose "TOMAHAWK SP" to include our popular PVC sleeve option.

The bottom of the Tomahawk post has a built in anti-rotation notch which engages the sleeve to prevent post rotation inside the sleeve during play.

When you are comparing tetherball sets for your playground or backyard, there's no sense in going round and round about it, choose the one that runs circles around the competition, TOMAHAWK!

the

FRONTIER™

STEEL COMPETITION VOLLEYBALL SET

FREE LETTERING
Upon Request

The Frontier steel competition volleyball system offers exceptional net and post rigidity at a price that will maximize your budget! Steel volleyball uprights have long been the popular standard when it comes to maintaining bowstring tight net tension. Though advances have been made with lightweight carbon fiber standards, steel is still the most economical way to get competition quality net tensioning.

Typical steel standards from other manufacturers are heavy and difficult to set up and take down. This is not the case with First Team's Frontier system! Though Frontier's uprights are constructed of thick 1/4" wall steel tubing, the Frontier is the only volleyball system constructed with its own built in transport wheel on each post. The transport wheel makes moving and setup a snap. Simply roll each upright to its respective floor socket and drop post into place, no lifting required!

All Frontier packages come complete with a wormgear crank net tensioner that will not backdrive and is the safest in the industry. The telescoping pistons are spring loaded for simple, quick net height adjustments from 78" to 98" for all levels of play. The net height is shown on the built in net height indicator. Each system comes with a top quality knotless mesh competition net made with Kevlar. First Team competition antennae set comes standard. Upright padding is included in your choice of 12 colors, padded rope covers and chain net height gauge are also included.

The entire system meets all NCAA, National High School Federation and USVBA rules.

All Frontier systems are covered by First Team's Lifetime Limited Warranty.

the ASTRO™

ALUMINUM COMPETITION VOLLEYBALL SET

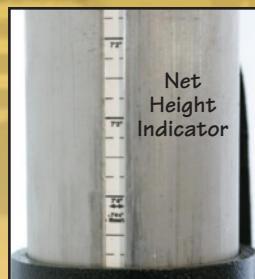

First Team's Astro competition volleyball set makes lightweight, high performance volleyball affordable!

The Astro volleyball set is constructed of 3 1/2" x 1/4" wall high strength aluminum. Net is tensioned with our high grade precision wormgear crank with folding handle. First Team's wormgear net tensioning crank is exceptionally safe with no "backdrive" common with inferior net tensioners. Net height adjustments from 78" to 98" are quick and easy using our internal spring telescoping piston design. Slide the inner telescoping tube up or down and turn knob to secure. Net heights are displayed on the telescoping tube as shown in photo.

Each Astro volleyball system includes 3 1/2" uprights, net tensioner, our top of the line competition volleyball net made with KEVLAR, protective rope covers, antennae set, chain net height gauge and upright padding. Upright padding is available in 16 colors shown below. And don't forget, when you purchase an Astro volleyball system First Team will custom letter the upright padding at no extra charge!

The entire system meets all NCAA, National High School Federation and USVBA rules. All Astro volleyball systems are covered by First Team's Lifetime Limited Warranty.

the GALAXY™

CARBON COMPETITION VOLLEYBALL SET

First Team introduces the GALAXY! The latest in innovative, high performance volleyball standards. The 3 1/2" diameter uprights are constructed of carbon fiber composite! Carbon fiber is the key, strong as steel and lighter than aluminum. Now volleyball programs can have it all, equipment that is lightweight and easy to setup without sacrificing upright rigidity or net tension. Carbon fiber has been used for many years in a variety of industries. Carbon fiber is used for such things as bicycle frames, golf clubs and aircraft. First Team's use of carbon fiber for volleyball sets provides space age, cutting edge performance to the sport. The Galaxy is truly as strong as steel, yet lighter than aluminum! The Galaxy comes complete with wormgear crank net tensioner that will not backdrive and is the safest in the industry. The telescoping pistons are spring loaded for simple, quick net height adjustments for Jr, Women's and Men's official heights and anywhere in between. The net height is shown on the built in net height indicator. Each system comes with a top quality knotless mesh competition net made with Kevlar. First Team competition antenna set comes standard. Upright padding is included and available in 16 colors. Padded rope covers and chain net height gauge are also included. The entire system meets all NCAA, National High School Federation and USVBA rules. All Galaxy volleyball systems are covered by First Team's Lifetime Superior Warranty. The Galaxy is simply the best volleyball system on the market today!

the **STELLAR**™

ALUMINUM RECREATIONAL VOLLEYBALL SET

First Team's Stellar aluminum volleyball posts provide the flexibility and performance needed for today's demanding volleyball indoors or out! The Stellar is manufactured from heavy wall 3½" OD aluminum tubing yet is lightweight and easy to setup. The wormgear crank net tensioner will not backdrive and is the same tensioner used in on our elite level volleyball units. Net height is easily adjusted anywhere from 96" down to 42" for all levels of competition volleyball play as well as tennis, badminton, pickleball and other net games. An easy to read net height indicator is located on each post. To adjust the net simply loosen the securing knob on each net collar and slide net up or down, twist knob tight to secure.

Stellar volleyball posts fit perfectly into any existing 3 ½" floor sockets. If your existing floor sockets are 4" diameter, First Team will provide floor socket adapters free of charge upon request. A variety of Stellar packages are available to suit your needs and budget. Select from complete packages including floor sockets, post pads, antennas, and net rope covers. Or pick the package that includes only those features you require. Post pads are available in 16 colors and lettering is included with the purchase of any Stellar package that includes padding!

Stellar units meet all NCAA, USVBA and National High School Federation rules. So, when you're searching for a volleyball post system that can meet your demands top to bottom, don't settle for performance that is less than Stellar!

the BLAST™

STEEL RECREATIONAL VOLLEYBALL SET

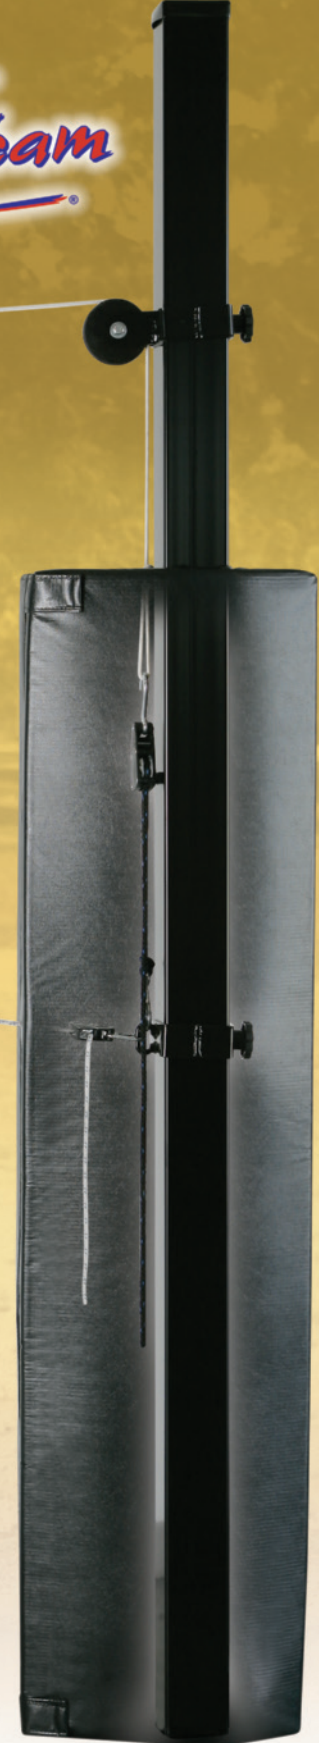

First Team introduces the Blast outdoor volleyball system. First Team's Blast volleyball systems are designed to offer high quality performance, durability, versatility and safety all in one affordable package.

The 4" square steel powdercoated uprights can be installed outdoors for either sand or grass volleyball courts. The infinitely adjustable net height from 7' 11 5/8" (men's competition height) down to 3' (tennis net height) makes the Blast a great unit for all ages and all types of net games. Our simple net tensioning device makes setting up the unit quick and easy providing competition level net tensioning.

Installation can be permanent by cementing posts in place, or post can be made removable when used with our FT16 sockets for sand.

First Team offers the Blast volleyball system in an array of configurations. Select from packages with or without padding, sleeves, etc. All Blast volleyball systems are covered by First Team's Lifetime Limited Warranty. When you are searching for the best in affordable volleyball systems, choose First Team and have a BLAST!

the QUICKSET™

STEEL RECREATIONAL VOLLEYBALL SET

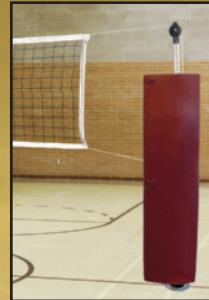

First Team's QuickSet provides quality net play and quick set-up without use of hazardous guy-wires! The QuickSet is the finest backyard volleyball set in its price range. The 2" square uprights are powdercoated black for competition styling. The galvanized upper sections telescope up and down to allow play at any height, men's, women's or junior. The QuickSet comes with the same high quality net and net tensioning device used on our higher end Blast systems.

Choose from two QuickSet configurations to meet your specific needs. The QuickSet-PM comes with our permanent ground stems that can be cemented in place providing a solid, permanent net installation. The QuickSet-SP is a great choice when post removal is desired. The QuickSet-SP includes our ground/floor sockets that can be installed in any indoor or outdoor location, allowing removal of the posts for storage. All systems include competition grade upright padding, available in an array of colors.

If your looking for an economical backyard volleyball system that out performs the rest, get ready, get set, QuickSet!

All QuickSet volleyball systems are covered by First Team's Lifetime Limited Warranty.

the APOLLO™

BACKYARD VOLLEYBALL SET

First Team's new Apollo™ backyard volleyball set is designed to provide exceptional net tension and easy setup without the need to imbed poles or sleeves in the ground. 2" diameter galvanized poles provide strong and stable net tension. Apollo's telescoping push button pole design allows quick and easy net height changes so all ages are able to play. Settings are available for official Men's, Women's and Jr. net heights. The net is made with heavy duty 3mm mesh construction surrounded by thick 14 oz. vinyl top, bottom and side bands. Uniquely designed guylines tensioners make for quick and easy guyline tensioning and the 18" guylines stakes included make sure they don't slip even when used on softer ground. Antennas, pole pads and boundary kit are included to give your backyard court that official touch. All components fit easily into the oversized storage bag which even allows extra room to store volleyballs with the set. So, when you next family gathering or weekend cookout calls for fun, reach for the stars with First Team's Apollo!

HORIZON™

COMPETITION PORTABLE VOLLEYBALL SYSTEM

FREE LETTERING
Upon Request

First Team is proud to introduce the latest in portable volleyball technology with the Horizon! The Horizon competition portable volleyball system is perfect for facilities where volleyball floor socket installation is difficult or impossible.

The Horizon portable base units transport and set up in minutes. Base units can easily be rolled away into a storage room and folded flat for compact storage. Stand posts upright and secure with locking pin for play. The built in anti-skid floor protector engages the floor automatically when post is lifted.

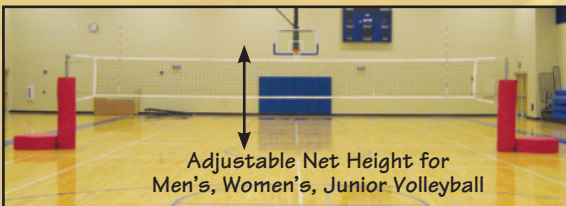

The low profile base design allows for excellent visibility for spectators and line of sight for officials. Each self-contained base has 700# built in ballast to allow bow-string tight net tension requiring absolutely no floor anchors, guy wires or tools. The Horizon is designed for quick and easy net height adjustments including junior, official men's and women's heights with just the turn of a knob. Horizon units include First Team's top quality Kevlar net, antennas, rope covers, post and base padding which may be lettered at no charge. Order Horizon Complete ST package to include First Team's premium SturdiStand padded judges stand.

So, when you are exploring the possibilities for an elite level portable volleyball system, trust First Team and look to the Horizon!

PORTACOURT STELLAR™

PORTABLE RECREATIONAL VOLLEYBALL SYSTEM

FREE LETTERING
Upon Request

Rope Covers Included

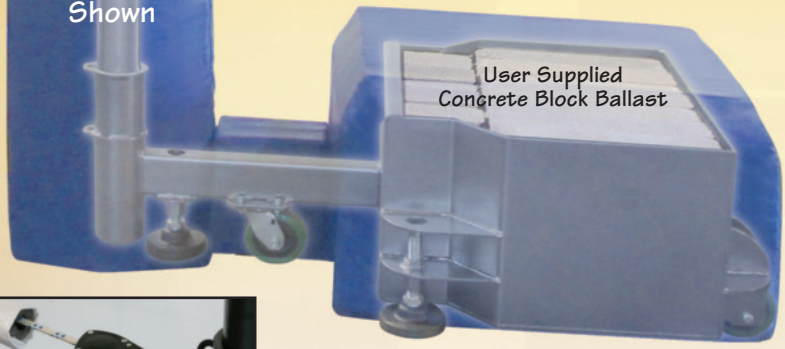

First Team proudly introduces the Portacourt Stellar portable recreational volleyball system. Portacourt sport bases provide the perfect combination of game quality net tension and ease of transport for budget conscious facilities that require higher level performance than common recreational tip n roll type sets. Portable volleyball sets are the answer for facilities where floor sockets are impossible or not desired. Each Portacourt sport base is designed to receive (19) 4"x8"x16" solid cement blocks (570 lbs.) commonly available at any builder's supply center. Simply slide the Stellar volleyball post into the post receiver sleeve welded to the front of the portable base. Then using a 3/4" socket wrench lower all three protective footpads to the floor. Set net height at men's, women's or junior height and your ready to play! Each unit includes safety padding to cover ballast box, neck and volleyball post. The base units can be moved by one adult with no need to remove ballast blocks. Each Portacourt Stellar package includes First Team's top quality Kevlar competition volleyball net, antennas, rope covers, post pads and base pads. Free post pad lettering is available upon request. Choose Portacourt Stellar ST package to include First Team's fully padded Sturdistand judges stand.

the **STELLAR AQUA**™ *First Team*

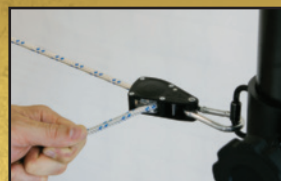

POOLSIDE ALUMINUM VOLLEYBALL SET

First Team is proud to introduce the Stellar Aqua poolside aluminum volleyball system! For those looking for a competition level quality volleyball set for the swimming pool, First Team's Stellar Aqua is unmatched!

The Stellar Aqua is manufactured using 3 1/2" diameter aluminum posts and a powder coat finish. The worm gear net tensioner is the same one used on our competition sets. No more sagging, drooping volleyball nets, the Stellar Aqua will remain bowstring tight. The Stellar Aqua-SP package includes our hinged ground sockets for easy installation and removal. When the posts are removed, the hinged lid covers the sleeve and provides a nice finished look. The net is manufactured from the same high quality materials our competition nets are made of. Because each pool set up is different, please specify the desired net length when ordering, allow 3 weeks for custom net production.

When choosing a volleyball system for your pool, don't settle for less than the best, First Team's Stellar Aqua!

the

WORLD CLASS™ 40

4" ROUND ALUMINUM PORTABLE SOCCER GOAL

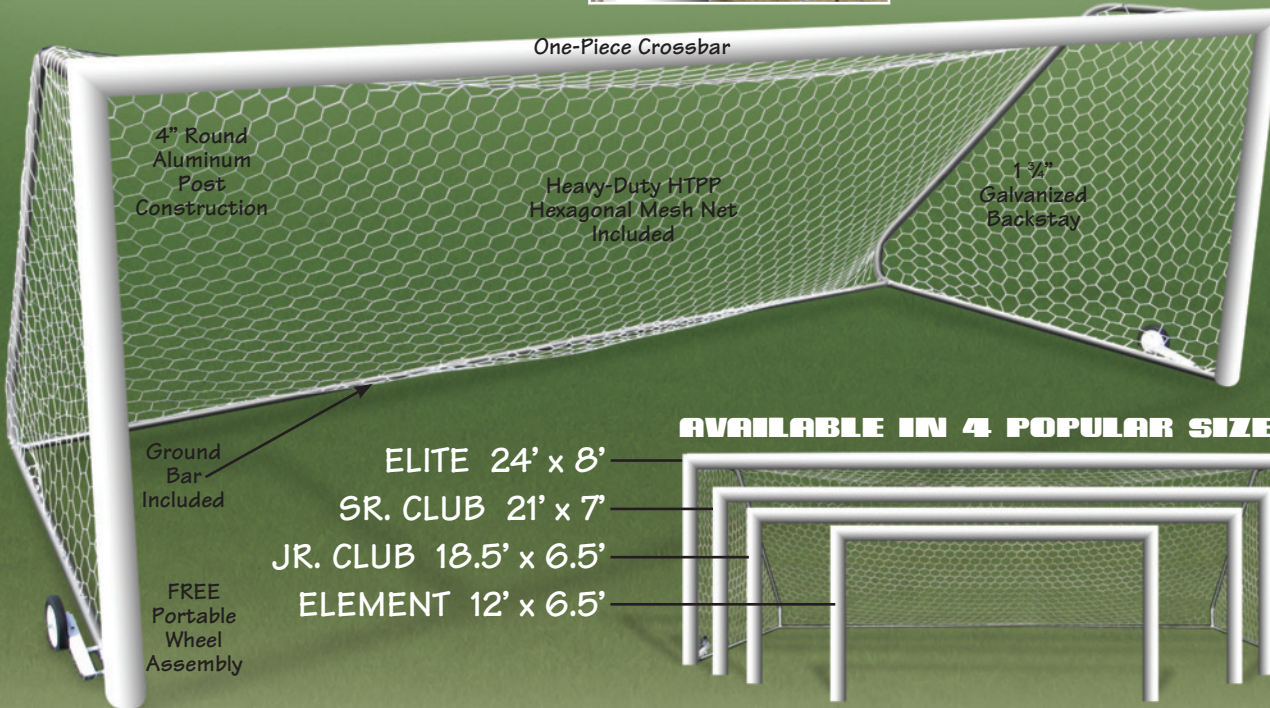

First Team introduces the World Class 40 line of 4" round aluminum portable soccer goals! The World Class 40 line is designed to maximize functionality while keeping budget conscious programs in the game. No other line can claim to offer the value of World Class 40!

All World Class 40 soccer goals are manufactured to exacting standards for true, seamless fit throughout. The 4" round aluminum uprights and crossbar are powdercoated white for an aesthetic appeal. First Team's World Class net fastening system attaches net securely in place. Once in place, World Class net clips will not come loose or get lost. No more velcro straps, welded hooks or nylon ties. Unlike other manufacturers clips, World Class net fasteners will not become loose or cause misalignment of net.

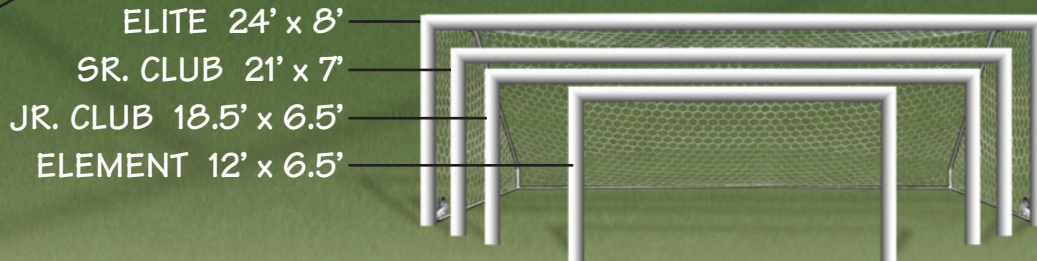

World Class 40 backstays are manufactured of 100% galvanized 1 3/4" round tube and will not rust. Backstays are designed extra deep for added stability and security and include our built in portable wheel feature for ease of transport. All World Class 40 goals meet or exceed ASTM F2950-14 for tipover and failure requirements. All World Class soccer units meet NCAA, NFHS and FIFA rules.

First Team is also one of the only manufacturers to include a padding compensation feature with all soccer goals. All goals can be assembled at official opening width or extended to compensate for thickness of upright padding if applicable.

World Class 40 goals are sold complete and always include goal structure, backstays, ground bar, transport wheel kits, auger style ground anchors and professional style hexagonal net.

AVAILABLE IN 4 POPULAR SIZES:

Model	Goal Size	Shipping Weight	Warranty

the WORLD CLASS™ 40

4" ROUND ALUMINUM PERMANENT/SEMI-PERMANENT SOCCER GOAL

First Team introduces the World Class 40 line of 4" round aluminum permanent and semi-permanent soccer goals! The World Class 40 line is designed to maximize functionality while keeping budget conscious programs in the game. No other line can claim to offer the value of World Class 40!

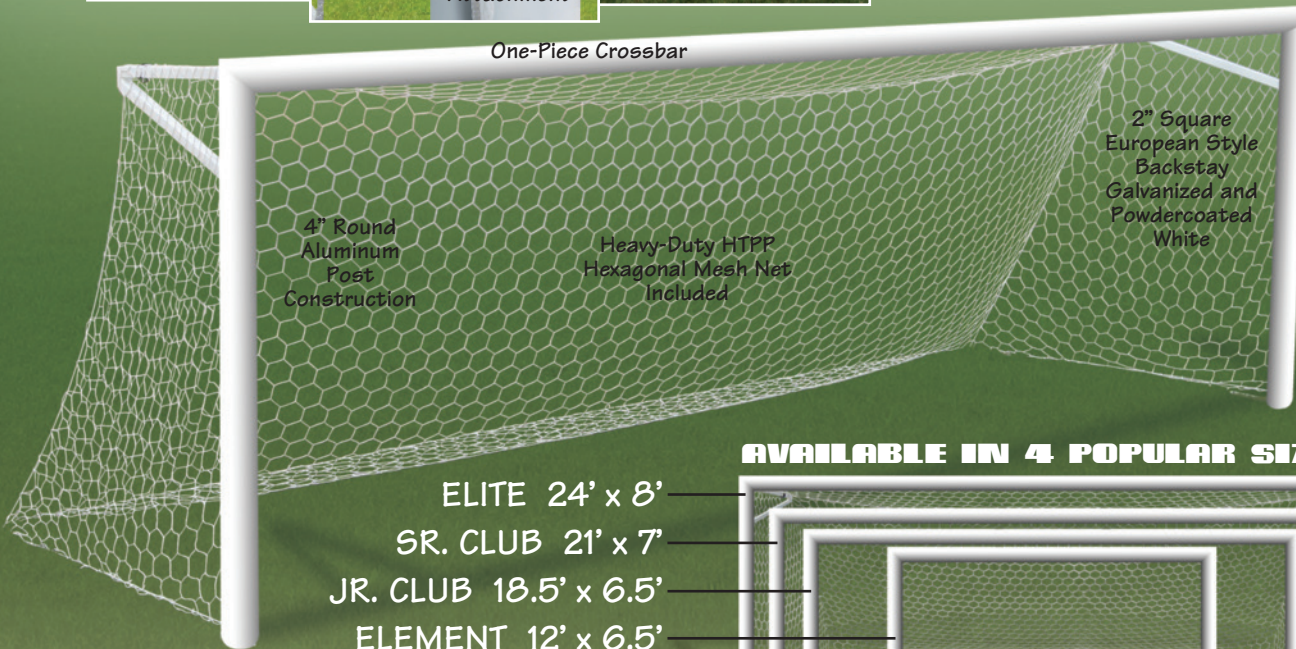

All World Class 40 soccer goals are manufactured to exacting standards for true, seamless fit throughout. The 4" round aluminum uprights and crossbar are powdercoated white for an aesthetic appeal. First Team's World Class net fastening system attaches net securely in place. Once in place, World Class net clips

will not come loose or get lost. No more velcro straps, welded hooks or nylon ties. Unlike other manufacturers clips, World Class net fasteners will not become loose or cause misalignment of net.

All World Class 40 permanent and semi-permanent goals include free 4' European Style backstays giving depth to the goal and net. Semi-permanent packages include our exclusive ground sockets with chrome plated cover lids. And don't forget First Team always includes our heavy duty professional style hexagonal mesh net with every goal!

All World Class 40 goals meet or exceed ASTM F2950-14 guidelines. All World Class 40 soccer units meet NCAA, NH&F and FIFA rules.

First Team is also one of the only manufacturers to include a padding compensation feature with all soccer goals. All goals can be assembled at official opening width or extended to compensate for thickness of upright padding if applicable.

the GOLDEN GOAL™ 44

ALUMINUM PORTABLE SOCCER GOAL

First Team introduces the Golden Goal 44 line of portable aluminum soccer goals! The Golden Goal 44 line sets a new standard in the soccer industry for durability, dependability, portability and safety. No other line of soccer goals offers all of the built in features included with these units.

All Golden Goal 44 soccer goals are manufactured to exacting specifications for a true, seamless fit throughout. The 4"x4" square aluminum uprights and crossbar are extruded with a safe 3/4" rounded radius on the corners for safety. The uprights, crossbar and backstay are fully integrated with First Team exclusive "STAY-PUT" net attachment design. With "STAY-PUT" there are no velcro straps, welded hooks, screws, nylon ties or plastic clips. STAY-PUT is the first, fully integrated net

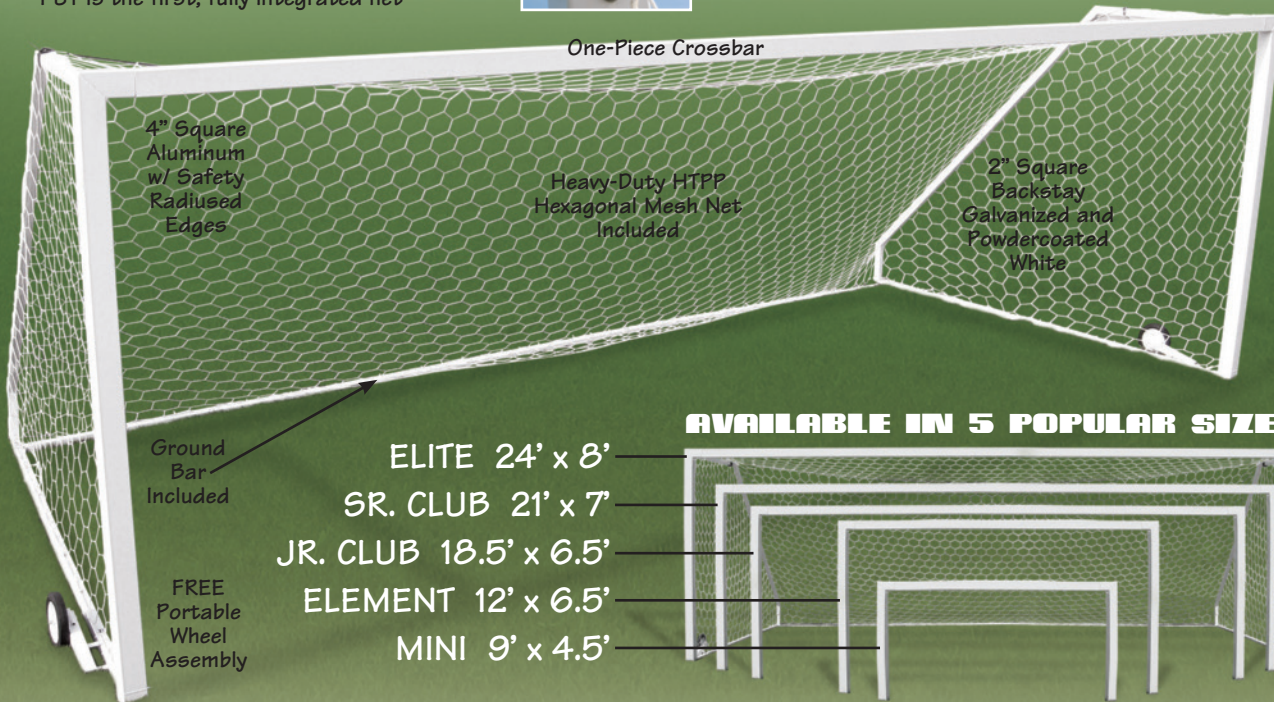

attachment system for soccer. Simply weave the attachment rope into the attachment notches located throughout the goal structure. The net will "STAY-PUT" until you are ready to remove it and there are no clips, etc. to lose or misplace. With STAY-PUT the net always remains tight and true because there are no clips to slide out of place common with other manufacturers lines.

Golden Goal 44 backstays are 100% manufactured of galvanized 2" square tubing that is powdercoated white, making the unit totally rust-proof for premium long-lasting aesthetic appeal. Backstays are reinforced at all corners to prevent weld fatigue common with other brands. All goals meet or exceed ASTM F2950-14 for tipover and failure requirements. All Golden

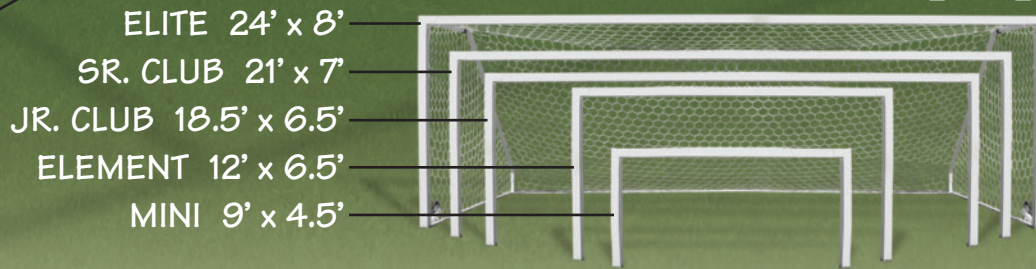

Goal 44 soccer units meet NCAA, National High School Federation and FIFA rules.

First Team is also one of the only manufacturers to include a padding compensation feature with all soccer goals. All goals can be assembled at official opening width or extended to compensate for thickness of upright padding if applicable.

Golden Goal 44's are sold complete and always include goal structure, backstays, ground bar, transport wheel kits, auger style ground anchors, and professional style hexagonal net. All Golden Goal 44 soccer goals are covered by First Team's exclusive Lifetime Superior Warranty.

AVAILABLE IN 5 POPULAR SIZES:

Model	Goal Size	Shipping Weight	Warranty

the GOLDEN GOAL™ 44

ALUMINUM PERMANENT/SEMI-PERMANENT SOCCER GOAL

First Team introduces the Golden Goal 44 line of permanent and semi-permanent aluminum soccer goals! The Golden Goal 44 line sets a new standard in the soccer industry for durability, dependability, and safety. No other line of soccer goals offers all of the built in features included with these units.

All Golden Goal 44 soccer goals are manufactured to exacting specifications for a true, seamless fit throughout. The 4"x4" square aluminum uprights and crossbar are extruded with a safe 3/4" rounded radius on the corners for safety. The uprights and crossbar are fully integrated with First Team's exclusive "STAY-PUT" net attachment design. With "STAY-PUT" there are no velcro, welded hooks, screws, nylon ties or

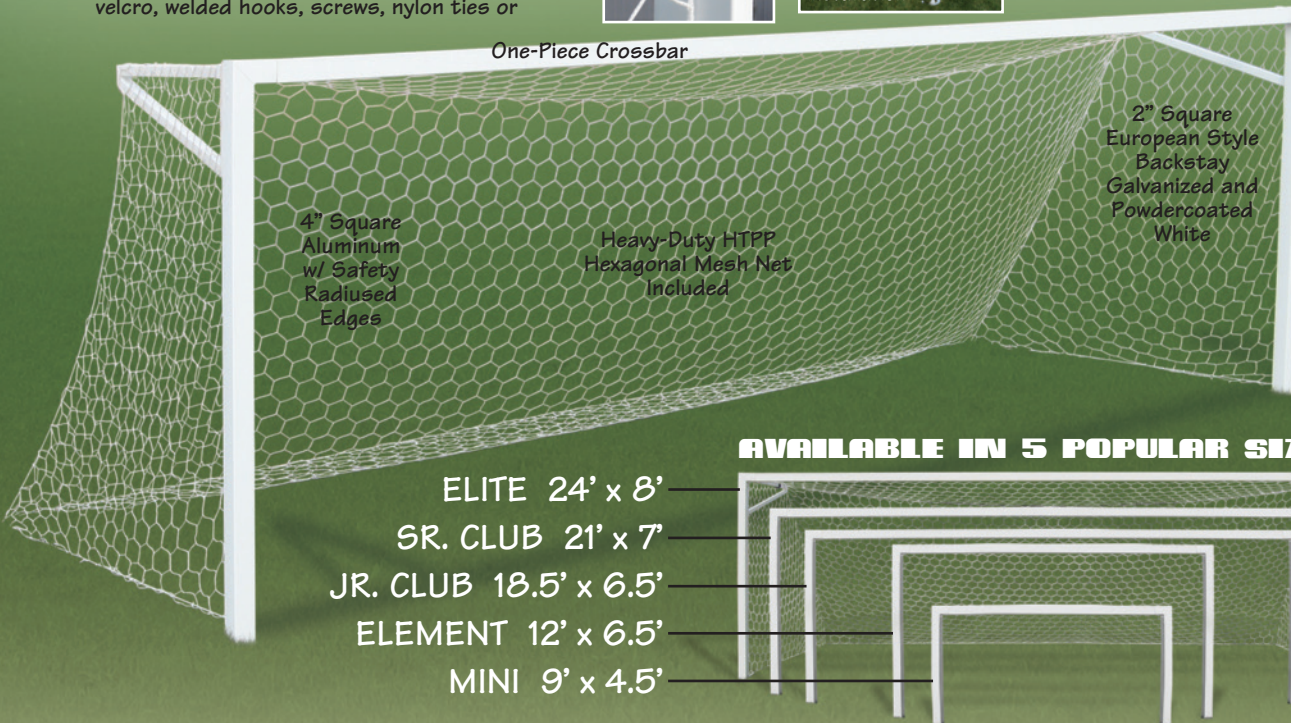

plastic clips. STAY-PUT is the first, fully integrated net attachment system for soccer. Simply weave the attachment rope into the attachment notches located throughout the goal structure. The net will "STAY-PUT" until you are ready to remove it and there are no clips, etc. to lose or misplace. With STAY-PUT the net always remains tight and true because there are no clips to slide out of place common with other manufacturers lines.

All Golden Goal 44 permanent and semi-permanent units include free European Style backstays for added aesthetic appeal. Semi-permanent packages include our exclusive ground sockets with chrome plated cover lids. Don't forget First Team always includes our heavy duty professional style hexagonal mesh net with every goal!

All goals meet or exceed ASTM F2950-14 guidelines. All Golden Goal 44 soccer units meet NCAA, National High School Federation and FIFA rules.

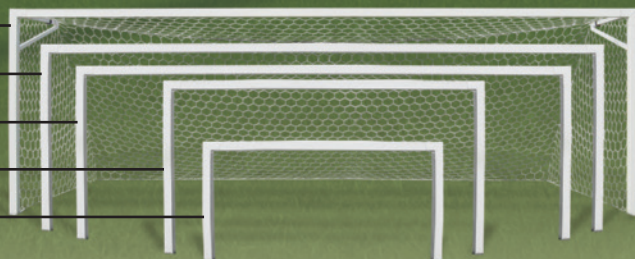

First Team is also one of the only manufacturers to include a padding compensation feature with all soccer goals. All goals can be assembled at official opening width or extended to compensate for thickness of upright padding if applicable.

All Golden Goal 44 soccer goals are covered by First Team's exclusive Lifetime Superior Warranty.

AVAILABLE IN 5 POPULAR SIZES:

- ELITE 24' x 8'
- SR. CLUB 21' x 7'
- JR. CLUB 18.5' x 6.5'

the FREEKICK™

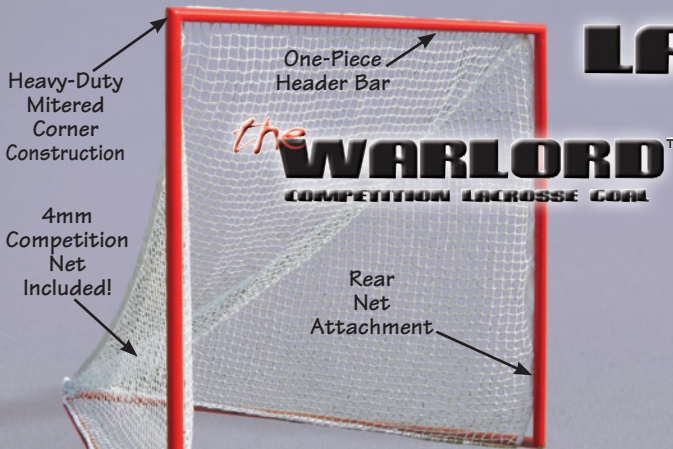

BACKYARD PORTABLE SOCCER GOAL

First Team

First Team introduces the FreeKick! The durable 1 1/2"x3" aluminum uprights and crossbar are powdercoated white for an official look and long term durability. The 1 3/4" galvanized backstays lock into place for rock solid play, yet quickly fold for convenient storage. The FreeKick comes complete with a competition grade net secured to the goal and backstays using our trademarked "Klip-It™" releasable clip design. No more chasing stray soccer balls because of sagging, out of place soccer nets. The FreeKick net will stay in place no matter what. Why settle for cheap, flimsy backyard goals that can't hold their ground? Finally, First Team offers a backyard soccer goal truly designed to perform up to the standards that your home team demands. The FreeKick is the perfect goal for tough backyard matches, spirited church play, daycare centers or anywhere soccer fans gather to play! When it comes time to choose a top quality soccer goal for your backyard, get your kicks with First Team's FreeKick!

LACROSSE GOALS

First Team's WarLord competition lacrosse goal dominates the field! The unit's 6'x6' goal opening is constructed of 1.9" O.D. schedule 40 tubing making the WarLord as tough as it gets. The unit is supported by a flat-style ground bar for player safety. Net attachment is on the backside of goal opening. No wrap around string or velcro straps on the face of goal. Unit is designed to be disassembled for storage without removing net. All corners are mitered, welded construction. Entire goal structure is powder coated orange with black ground bar. Unit comes complete with our premium grade FT610N competition lacrosse net. The WarLord is covered by First Team's Lifetime Superior Warranty!

- FT610 WarLord Lacrosse Goal
- FT610N Heavy Duty Competition Lacrosse Net
- Lifetime Superior Warranty
- Approx. Shipping Weight: 75 lbs.

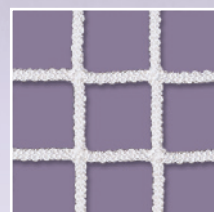

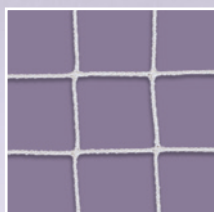

Great for practice or as a premium unit for backyard use, First Team's WarMonger is a great way to get into the game on budget. The WarMonger is constructed of formed heavy gauge 1 3/4" steel tubing with spring-pin assembly. Goal opening is 6'x6' with V-shaped bottom frame. The entire unit is powder coated orange and includes our FT605N standard lacrosse net. The WarMonger is covered by 5-Year Limited Warranty.

- FT605 WarMonger Lacrosse Goal

uprights)

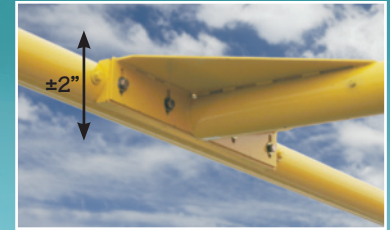

4" Diameter
Aluminum
Uprights

The ALL PRO line of football goalposts are First Team's biggest and best! The All Pro series boasts a massive 6 5/8" diameter steel post for maximum structural stability. For rust free performance the goalpost has a galvanized undercoating while the 6 5/8" diameter crossbar and 4" diameter uprights are made from rust free aluminum.

First Team's All Pro series has several installation features that make set up the easiest in the industry. First, the All Pro has a unique telescoping nosecone design that allows the overhang distance to be extended anywhere from 6'9" to 8'6". So no matter what, the crossbar comes out dead even with the back of the endzone every time. Second, the nosecone attachment not only allows the crossbar to be leveled at time of assembly, but you can also fine tune the crossbar elevation up to 2" up or down. So the crossbar is always at perfect 10' height every time. Third, each upright is attached to an adjustable corner elbow that is fully rotational allowing the uprights to be assembled perfectly straight every time.

Remember, because the All Pro can be set to a maximum overhang of 8'6" it works great when used in conjunction with portable soccer goals on multi-use fields. Post pads, ground sleeves and access frames are available for any All Pro package.

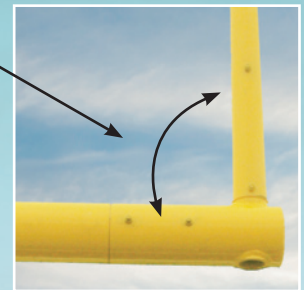

Wind direction streamers are included. All Pro football goalposts are covered by First Team's 10-Year Limited Warranty.

the ALL AMERICAN™ FOOTBALL GOALPOST

First Team

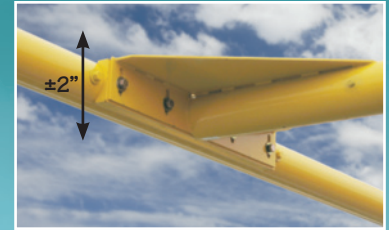

When you are looking for exceptional football goalposts with industry leading features and warranty, trust First Team's ALL AMERICAN line! The All American series boasts a massive 5 9/16" diameter steel post for structural stability unmatched by competitor's lines. For rust free performance the goalpost has a galvanized undercoating while the 5 9/16" diameter crossbar and 4" diameter uprights are made from rust free aluminum. Don't be fooled by small diameter weak, sagging crossbars and flimsy uprights offered on many competitors systems.

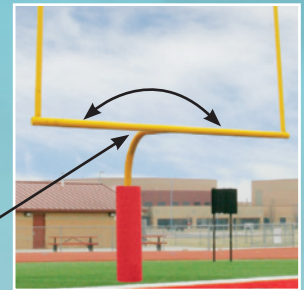

First Team's All American series has several installation features that make set up the easiest in the industry. First, the All American has a unique telescoping nosecone design that allows the overhang distance to be extended anywhere from 6'9" to 8'6". So no matter what, the crossbar comes out dead even with the back of the endzone every time. Second, the nosecone attachment not only allows the crossbar to be leveled at time of assembly, but you can also fine tune the crossbar elevation up to 2" up or down. So the crossbar is always at perfect 10' height every time. Third, each upright is attached to an adjustable corner elbow that is fully rotational allowing the uprights to be assembled perfectly straight every time.

Remember, because the All American can be set to a maximum overhang of 8'6" it works great when used in conjunction with portable soccer goals on multi-use fields. Post pads, ground sleeves and access frames are available for any All American package.

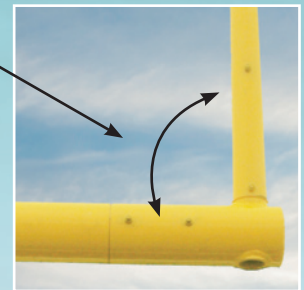

Wind direction streamers are included. All American football goalposts are covered by First Team's 10-Year Limited Warranty.

Streamers Included!

First Team's ALL Star football goalposts are perfect for any program on any budget! The All Star series sports a 4 1/2" diameter steel post that has a galvanized undercoating while the 4 1/2" diameter crossbar and 2 3/8" diameter uprights are made from rust free aluminum.

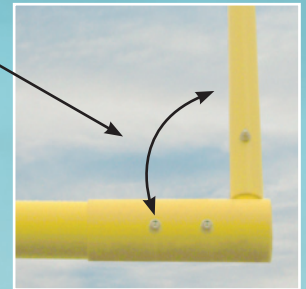

First Team's All Star series has built in crossbar and upright leveling features that make straight, professional installation a breeze. First, the All Star has a unique telescoping nosecone design that allows the overhang distance to be extended anywhere from 6' to 6' 6". So no matter what, the crossbar comes out dead even with the back of the endzone every time. Second, the nosecone attachment allows the crossbar to be leveled at time of assembly. Third, each upright is attached to an adjustable corner elbow that is fully rotational allowing the uprights to be assembled perfectly straight every time.

All Star packages are available with crossbar lengths of 23' 4" for high school or 18' 6" for college. See chart below for model numbers. Post pads with are available for any All Star goalpost package. Remember, post pad lettering is included free when you purchase a post pad with your All Star football goalpost.

the **GRIDIRON**™

BACKYARD FOOTBALL GOALPOST

First Team

Easy One Person Setup

Store With the Uprights
in Lower Position

First Team offers the revolutionary Gridiron backyard football goalpost. At last, a backyard football goalpost that is premium quality! Why settle for small, flimsy, plastic goalposts offered by other manufacturers? The Gridiron football goalpost is built solid from the ground up. The vertical post and crossbar are constructed from 3" aluminum. 1 1/2" diameter uprights are also made from aluminum construction. The crossbar stands 6'6" above the playing surface and measures 7' wide. The uprights are 74" tall above crossbar. All parts are coated with official safety yellow powder coat paint. Red wind streamers are included.

The Gridiron football goalpost is light weight and easy to carry due to aluminum construction. The unit folds for easy storage as shown. Several Gridiron combo packages are available so you can choose the kit that suits your backyard best. Choose Gridiron Complete package to receive post pad and removable ground socket. We will even print your name on the post pad FREE! All Gridiron package options are covered by First Team's Lifetime Limited Warranty.

the SENTRY™

TENNIS POST SYSTEM

First Team

• Packages Include White Center Strap With Anchor

Flush Surface Strap & Anchor

First Team introduces the SENTRY™ tennis post system. The Sentry tennis post line is extremely durable and versatile, capable of meeting the needs of dedicated and multi-purpose courts. The Sentry post is manufactured from 3.5" OD heavy duty, 1/4" thick high tensile aluminum. Straight and true, the Sentry will stand up to high use courts and allows proper game tension on the net with no bowing on the posts. The worm gear net tensioner winch is safe, no chance of injury due to back drive common on competitor's winches. A heavy duty double top six net with coated top cable is included with each Sentry package. Center strap and anchor also included. Each Sentry package includes ground sleeves for easy installation and post removal. SENTRY TNPS includes standard PVC sleeves, while SENTRY TNSO includes our exclusive sockets with hinged cover lids. These sockets are particularly useful on multipurpose courts where a smooth flush surface is desired when tennis posts are removed. SENTRY TNSO also includes our exclusive Flush Mount strap anchor for flush surface when not in use.

the GUARDIAN™

TENNIS POST SYSTEM

First Team

First Team introduces the Guardian tennis post system. The Guardian tennis post line is extremely durable and versatile, capable of meeting the needs of any top-notch court. The Guardian post is manufactured from 3.5" OD heavy duty, 1/4" thick high tensile aluminum. Straight and true, the Guardian will stand up to high use courts and allows proper game tension on the net with no bowing on the posts. The internal worm gear net tensioner winch has a clean look and is safe for users. Our exclusive internal winch is made from heavy duty stainless steel and is far stronger than competitor's common brass winch design. A heavy-duty double top six net with coated top cable is included with each Guardian package. Center strap and anchor also included. Each Guardian package includes ground sleeves for easy installation and post removal. Guardian TNPS includes standard PVC sleeves, while Guardian TNSO includes our exclusive hinged sockets. These sockets

are particularly useful on multipurpose courts where a smooth flush surface is desired when tennis posts are removed. Guardian TNSO also includes our exclusive Flush Mount strap anchor for flush surface when not in use. Order GUARDIAN TNSM for surface mount applications where installing sleeves below ground is not possible or not desired.

the PORTACOURT SENTRY™

PORTABLE TENNIS SET

First Team

If you are looking for a portable tennis set that truly provides game type performance, is easy to move and easy to store, look no further than First Team's Portacourt Sentry portable tennis set. This is the first and only portable tennis set with weighted base units that allow for true game level net tension without the need of a long bulky stiffening bar running under the net from post to post. The Portacourt Sentry set is held firmly in place via (19) solid concrete blocks that provide roughly 570 lbs. of weight per base. Though the Portacourt Sentry base units are weighted to allow competition level net tension, they are easy for one person to roll around on a hard, smooth surface and the block never need to be removed. To transport the unit simply retract each of the 3 stabilizer footpads on the base and push or pull to roll. The Portacourt Sentry winch post is equipped with our safe and simple worm gear style winch design that prevents the risk of hand injury due to back drive common with competitors net winches. Each unit includes 2" thick padding to cover both bases for player safety. Complete system includes two bases with posts, tennis net, net winch and base padding in your choice of 16 colors. The Portacourt Sentry portable tennis set is covered by First Team unmatched Lifetime Limited Warranty. If your court calls for the simplicity and flexibility of a portable tennis set, don't settle for less than First Team quality. Make the right call with First Team's Portacourt Sentry portable tennis set!

the SENTRY™

PICKLEBALL POST SYSTEM

• Post Assembly Telescopes For Use As Tennis Post On Multi-Use Courts

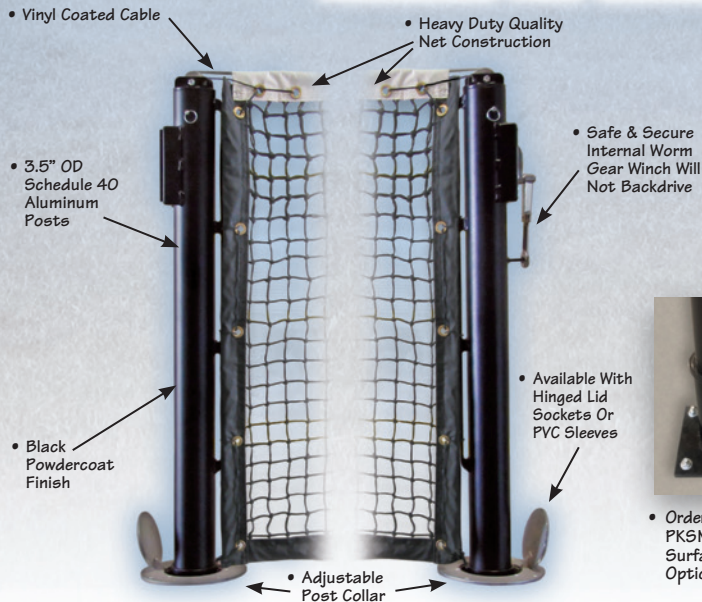

First Team

First Team introduces the SENTRY™ pickleball post system. Sentry is the first pickleball set to feature the ability to quickly switch from pickleball to tennis on multi-use courts. The Sentry top cap telescopes up or down with just the pull of a pin to quickly change net height from 36" pickleball to 42" tennis. The unit is constructed of 3.5" OD heavy duty, 1/4" thick high tensile aluminum. Aluminum construction makes these posts easy to remove and store, or reset for tennis if desired. The heavy duty worm gear driven winch is easy and safe to operate and has a quick detach removable crank handle. Sentry package systems include a heavy duty pickleball net made from the same high quality components we use on our tennis nets. Choose from two Sentry system options: SENTRY PKPS includes standard PVC sleeves for post installation while SENTRY PKSO includes our exclusive sockets with hinged cover lids. These sockets are particularly useful on multipurpose courts where a smooth flush surface is desired when posts are removed.

• Order Guardian PKSM for Surface Mount Option

First Team

First Team introduces the GUARDIAN™ pickleball post system. The unit is constructed of 3.5" OD heavy duty, 1/4" thick high tensile aluminum. Aluminum construction makes these posts easy to remove, store and setup. The heavy-duty steel internal worm gear driven winch is easy and safe to operate and has a lockable handle or handle may be removed. GUARDIAN package systems include a heavy duty, pickleball net made from the same high quality components we use on our tennis nets. Choose from GUARDIAN two system options: GUARDIAN PKPS includes standard PVC sleeves for post installation while GUARDIAN PKSO includes our exclusive sockets with hinged cover lids. These sockets are particularly useful on multipurpose courts where a smooth flush surface is desired when posts are removed. Order GUARDIAN PKSM for surface mount applications where installing sleeves below ground is not possible or not desired.

Model	Description	Shipping Weight	Warranty
GUARDIAN PKPS	... Complete pickleball post system described above including PVC post sleeves	80 lbs.	Lifetime Limited
GUARDIAN PKSO	... Complete pickleball post system described above including hinged lid sockets	110 lbs.	Lifetime Limited
GUARDIAN PKSM	... Complete pickleball post system described above including surface mount option	110 lbs.	Lifetime Limited

the SCORPION™

PORTABLE PICKLEBALL SET

First Team

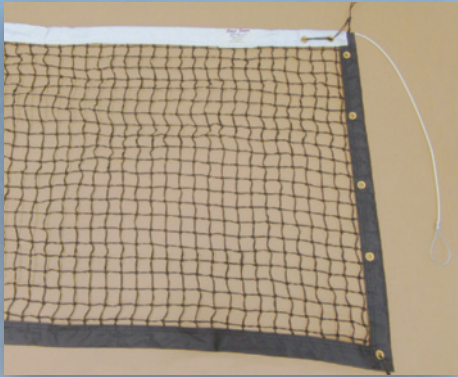

First Team introduces the best portable pickleball set ever made, Scorpion! No more cheap, flimsy portable pickleball sets to blow over in the wind. First Team's Scorpion portable pickleball set is manufactured to provide true game quality performance just like in-ground models. The weighted ballast box at the back of the unit carries 300 lbs. of preinstalled weight. This keeps the Scorpion base stable so it won't budge during net tensioning or during play. The safe and convenient net tensioning design is simple and quick for anyone to use. Though the base units are weighted, they are easily moved by one person. Just tip the upright backward to engage the rolling wheels and push or pull the unit to the desired location. Scorpion's unique weighted base design eliminates the need for a long ground stiffening bar running along the bottom of the net common with competitors' systems. This makes Scorpion easy and quick to move and even easier to store. The base units and net can store in an area roughly 48"x 60". Each Scorpion base includes black safety padding to guard against player contact. No need to remove padding during transport. Make the right pick for your pickleball court. Choose First Team's Scorpion portable base standards!
